Maintenance & Repair Service

How Do You Fix Inside Wiring When A Problem Exists?

1. You may fix the trouble yourself
2. Have a third party fix it for you
3. Have the telephone company fix it for a time and material charge (call for rates)

To Avoid A Service Charge

If you experience trouble with your telephone service, take the steps below to try and isolate the difficulty.

1. See that all cords are firmly plugged in
2. See that all handsets are in place
3. If you cannot make outgoing calls, unplug all of your phones, answering machines, etc.
Try plugging in a corded phone that does not require power at various jacks to see if the issue is just with a jack. If the phone doesn't work in any of the jacks then the trouble is probably that phone.

Ohio Relay Service

About Ohio Relay

Ohio Relay is a free service that provides full telephone accessibility to people who are deaf, hard-of-hearing, deaf-blind, and speech-disabled. This service allows text-telephone (TTY) users to communicate with standard telephone users through specially trained operators.

Calls can be made to anywhere in the world, 24 hours a day, 365 days a year with no restrictions on the number, length, or type of calls. All calls are strictly confidential and no records of any conversations are maintained.

Anyone who wishes to use Ohio Relay simply dials the toll free relay number to connect with a relay operator. The relay operator will dial the requested number and relay the conversation between the two callers.

A neat feature about Ohio Relay is 7-1-1. It is an easy number to remember for dialing relay services.

What is 7-1-1

7-1-1 is a telephone relay number that connects standard (voice) telephone users with deaf, hard-of-hearing, deaf-blind and/or speech-disabled people who use text telephones (TTYs). Relay users can now simply dial 7-1-1 to connect with Ohio Relay. This allows the user easier access, particularly for less experienced relay users such as businesses or friends and family of TTY users.

7-1-1 is NOT an emergency number and should not be confused with 9-1-1.

However, if you use a TTY and cannot obtain emergency services on 9-1-1, you may call 7-1-1 and tell the relay operator you have an emergency situation. The operator will then voice your emergency to the Ohio State Police or your local law enforcement.

All states now have 7-1-1. There is no fee for using 7-1-1 service.
