

Residential Product Line

Quality People. Quality Products.

We value our customers and manufacture our garage doors with the highest quality workmanship and raw materials.

Our method is simple. We hire quality people driven to produce quality products. We don't just say it - we do it. Together, we find innovative ways to solve problems and continuously improve while working smarter and safer. Our people take pride in their work and strive to provide the highest quality of product and service day in and day out. That's the Haas Door Difference.

As you read forward, allow us to open a door to endless possibilities for you!

American TraditionTM series

9630 in carbon black with arch 3-pane dark gray/dark gray windows

9642 in sandstone with white overlays

A **Full Thermal Break** is used in the tongue-and-groove construction of all 9600 series doors. This rigid vinyl extrusion seals the joints and eliminates metal-to-metal contact, which limits the transfer of temperature.

9600 series doors exceed the ASHRAE 90.1 Standard when installed with standard bottom seal and commonly available rigid/flexible vinyl door stop.

Enjoy the handcrafted quality and rich traditional carriage house style without the maintenance of wood. The American Tradition Series™ doors contain environmentally compliant polyurethane insulation with a calculated R-value of 13.45. They are available in eight solid and four wood grain colors, with an option to mix and match any combination. *(examples: almond boards on a sandstone door or carbon black boards on an american walnut door)*

SelectView Options

SelectView by Haas Door allows you to break out of the mold of a traditional garage door by placing windows in multiple patterns dependent on the window openings you desire. Whether you desire a modern take on a wood grain door or wish to match the window pattern to an entrance door, SelectView makes it easy to create a unique garage door window pattern to complement the style of your home or create a unique look. Wind Load requirements limit window placements.

Carriage House Options

- Add windows to a flush door to create a modern, custom look to fit your home.
- Available in Flush panel models.
- Available with Decorative glass, Specialty glass & inserts.
- Largest glass window size - 39 7/16" x 13 5/8".

(Possibilities shown below, many more available)

TL Options

- Take the ordinary residential door to extraordinary.
- Available in Flush and V-Groove models.
- 25" x 12" and 24" x 6" window sizes, large window frame matches door color.

(Possibilities shown below, many more available)

Standard Options

- Mix windows & standard panels for a unique look.
- Available in Raised Standard stamped panel models.
- Available with Decorative glass, Specialty glass & inserts.
- 18 3/8" x 11 3/8" window size for 5000, 2000, 700 and 600 Series – 17 3/8" x 11 3/8" window size for 2400 and 2500 Series.

Residential Warranty & Product Gauge Information

American Tradition™ Series

Insulated 26 Gauge Galvanized Steel & Overlay
Lifetime Delamination and Rust-Through Warranty
10 Year Finish Warranty
6 Year Hardware Warranty
5 Year Overlay Delamination Warranty
3 Year Spring Warranty
1 Year All Other Components

Residential Aluminum 360 Series

.050" Minimum Aluminum Tubular Extrusion
6 Year Hardware Warranty
5 Year Finish Warranty
3 Year Spring Warranty
1 Year All Other Components

5000 Series

Insulated 24 Gauge Aluminum
Lifetime Delamination Warranty
10 Year Finish Warranty
6 Year Hardware Warranty
3 Year Spring Warranty
1 Year All Other Components

2000, 700, 600 Series

Insulated 26 Gauge Galvanized Steel
Lifetime Delamination and Rust-Through Warranty
10 Year Finish Warranty
6 Year Hardware Warranty
3 Year Spring Warranty
1 Year All Other Components

2400 Series

24 Gauge Galvanized Steel
Lifetime Rust-Through Warranty
6 Year Hardware Warranty
3 Year Spring Warranty
1 Year All Other Components

2500 Series

24 Gauge Nominal Galvanized Steel
Lifetime Rust-Through Warranty
3 Year Hardware Warranty
3 Year Spring Warranty
1 Year All Other Components

Wind Load

Haas garage doors are available in a wide range of design pressures for wind load requirements. Contact your local dealer for more information about wind load requirements in your area.

Advanced Paint System

All Haas garage doors include a three-tier, corrosion resistant protective finish with a polyurethane primer and a durable polyester finish coat on the interior and exterior. Haas Door's paint thickness is one of the highest in the industry.

Aluminum

Steel

Weather Seal

Haas garage doors include a heavy vinyl bottom weather seal that seals out the elements and repels the most hostile weather conditions.

Insulated Models

2400 & 2500 Series

Accessories

Optional decorative hardware is available on most models.

Hinges (optional)

Handles
(optional, standard on 900 series)

Black nylon, white nylon,
10 ball steel roller

Powder Coated Hardware Options

Haas Door is Committed to Quality.

As a member of the Door and Access Systems Manufacturers Association (DASMA), Haas Door is committed to industry standards for quality and safety. In addition to these guidelines, Haas Door has developed its own quality assurance procedures.

Each raw material used in the manufacturing process is inspected daily for quality assurance. Steel used on the inside and outside skins is checked for accuracy in thickness and finish. The insulation material, a high density environmentally compliant polyurethane foam, is tested continuously on each production line to ensure that the correct density, blend of material, cure time and calculated R-values are achieved.

Samples of manufactured doors are tested for quality and durability. Doors are cycled tens of thousands of times to test the performance and endurance of the sections, hinges, springs, cables, rollers, bottom seals, and track. Strength is measured using two separate tests. Individual sections are subjected to a dead load test, and complete doors are wind load tested. This ensures that Haas garage doors will meet wind load requirements for building codes across the country.

Haas continues to perform testing outside of the manufacturing facility, as both prototype and current doors are installed in various locations and monitored for durability. External labs are also used to test specific components to ensure quality standards.

Quality people and quality products are what make Haas Door the best garage door manufacturer in the industry. Open the door to endless possibilities!

Environmental Responsibility

Haas Door Company manufactures all garage doors in the U.S. and is committed to providing quality products that are safe for our customers and to the environment. Haas garage doors are made from steel that contains 80% recycled material. A plastic thermal break, made with recycled materials, separates each door section to eliminate metal-to-metal contact and the transfer of temperature. Haas also uses environmentally compliant polyurethane insulation, which results in some of the most energy-efficient doors on the market. Good for the environment and saves energy!

Haas Door has also implemented an ongoing improvement plan to gain efficiency and reduce waste, including a recycling program for scrap metal, cardboard and plastic. Many suppliers are regional, which minimizes fuel costs, and material packaging is reused or recycled whenever possible.
