OUR STORY Named after one of the founding members of the National Automotive Parts Association (NAPA®), and Automotive Hall of Fame Inductee, Carlyle Fraser, Carlyle Tools is the Professional Tool line of NAPA AUTO PARTS. Built with superior technician quality and designed with input and feedback from industry technicians, Carlyle Tools strives to provide the professional tradesman an affordable, high performance tool that is dependable in the harshest work environments. Carlyle Tools offer nearly 8,000 products throughout 16 categories, with more being added every year.

Carlyle Fraser

MOBILE TOOL TRUCK QUALITY

- High performance tools & equipment for professional technicians and tradespeople
- Dependable in the harshest work environments in any industry
- Manufactured globally for NAPA AUTO PARTS. Including the U.S.A., Taiwan, India, China, and Germany
- Engineered and designed to meet and exceed all ANSI, ASME, and PACE Certifications by up to 150%
- · All at a fraction of the cost as those other guys who you only see on pay day

WE'RE MORE THAN JUST HAND TOOLS

We've been adding quality tools & equipment to support professional technicians and at-home mechanics. Stop by your local NAPA AUTO PARTS Store

TIMER CONTROLLED WHEELED BATTERY CHARGERS

REDESIGNED TO MEET TODAY'S **ENERGY EFFICIENCY STANDARDS**

- Manual operation technology gives you hands-on control of the start-up process
- · Boost-Mode quickly brings deeply discharged batteries back to life
- Rotary Switches (Customer's Favorite!)
- Designed for use on all battery types (Standard, AGM, Gel, and Deep-Cycle)

Enhanced Features Include:

- Premium Starting Power
- Sturdy Metal Case
- Top Control Panel
- Dial-Top Knobs For Amp Selection and Charge Timing
- · Easy-to-Read Meter
- · Convenient Clamps and Cords On Front
- Coded Heavy Duty Clamps · Retractable Handle
- · Compact Wheel for Storage

Battery Chargers

Wheel Charger Features

- Units work exactly the same as the manual technology wheel chargers operating at 0 volt start-up
- These units have heavy duty internal transformers, but new high tech circuitry that controls arcing
- · Designed for use on all battery types: Standard, AGM, Gel, and Deep-Cycle

\$179

225A/12V; 125/6V Engine Start

- 6<>2 Maintain; 40A boost mode · Digital display, LED indicators and button
- Charges standard, AGM, GEL and deep-cycle batteries
- Microprocessor automatically adjusts the amperage rate to charge
- · Auto battery voltage detection
- Reverse hook-up protection

Extreme Tools® TX Series 36" Deluxe 5-Drawer Extra-Capacity Road Box

• 5 big drawers: 2 deep and 3 standard size drawers

- Full-extension friction slides allow drawers to hold up to 150 lbs per drawer
- . Top till area under the lid provides additional storage
- Closed lid locks drawers in place so they cannot open in transport
- · Weather-resistant drip trough channels water away inside of toolbox
- · Weather-resistant wrinkle finish is scratch-resistant and is great for travel
- 1"x1" square tubing frame and water tight welded seams for rigid protection
- · Handle design in front makes maneuvering easy
- 2 chrome-plated side handles
- · Quiet ride foam drawer liners included
- Caster-ready (casters sold separately)

Quickly remove seized part, auto glass, molding and bedliners using Induction heating for vehicle & equipment repair.

Induction Innovations: The Choice of ASE Master Technicians & Modern Repair Operations, Worldwide.

professional's choice handheld, flameless torch and leverages the power of Invisible Heat® to heat ferrous metals in seconds. Using high frequency magnetic fields, the Mini-Ductor releases corroded or frozen hardware and other metallic components from corrosion and thread lock compounds - all without the collateral damage normally associated with torches.

MINI-DUCTOR® **VENOM®**

The Mini-Ductor® Venom® is the third generation of the Mini-Ductor Series portable induction heaters from Induction Innovations. The Venom® releases metal from corrosion and thread lock compounds without the dangers of an open flame and up to 90% faster.

MINI-DUCTOR®

VENOM® HP

includes a bold new color along with maximum power available from a 120v/15amp line, with a heavy duty 18-amp cord to deliver the needed current to its new circuit design. The new Venom HP allows users to heat larger metal fasteners and components faster than ever before.

Flex-Hone® for Rotors

utilizes the patented Flex-Hone technology to produce the ideal surface finish on automotive and motorcycle disc brake rotors, automotive fly wheels and clutch plates. More rotors per hone than abrasive pads.

STARTING AT

The GB Series Flex-Hone® Tools

are designed for bore diameters from 3-1/4" thru 4-5/8" and are 13 -1/2" OAL. These standard duty Flex-Hones tools are commonly used to finish and deglaze block cylinders or liners and represent a tremendous value on a cost per cylinder basis. Additional abrasive types and grits are available.

The BC Series Flex-Hone® Tools

is designed for use on any type or size of cylinder from 4mm up to 3" in diameter. This cylinder hone is designed for surface finishing and cross hole deburring in brake cylinders, wheel cylinders, hydraulics, pneumatics and valve guides. Additional abrasive types and grits are available.

RELIABLE, DURABLE AND BUILT TO LAST

NEW YEAR, NEW SAVINGS!

- 100% cast iron pump and cylinder head with deep-groove directional cooling fins
- High-efficiency stainless steel valves
- Oversized industrial-grade bearings for extended pump life
- · High-efficiency intercooler
- ASME Coded receiver
- · Service-Friendly design with no special tooling required
- · Balanced pistons for maximized efficiency and minimized vibration
- Use of All-Season Select Lubricant allows continuous duty operation
- · Two-year pump warranty with purchase of start-up kit

as low as \$78 \$ 24

In addition to the features on our Value Packages, the Premium Package models include

- · Air-cooled aftercooler to help remove additional moisture
- · Low oil protection switch to prevent pump from running dry
- Electronic drain valve, automatically drains water from compressor tank

MAHLE

OzonePRO

VARIOUS MINISTRIES OF HEALTH around the world recognize the use of ozone as a disinfecting agent a natural way to sterilize areas contaminated with bacteria, viruses, spores, molds and mites.

Why choose Ozone?

Ozone is a natural gas, widely used in sanitary facilities due to its ability to oxidize and disrupt the molecular structure of bacteria, fungi and viruses.

Multifunction Sensor

- Ozone
- Humidity level
- Temperature
- Barometric pressure
