SPECIALTY POWER WINDOWS®

POWER WINDOW & WIPER KITS

ENGINEERED LIKE NO OTHER

WE BUILD THE SOLUTION to your power window and wiper problems. Our power window system is the most versatile on the market.

## SPW POWER WONDER-LIFT

LIMITED LIFETIME WARRANTY

The SPW Power Wonder-Lift Cable Driven OEM Motor Kit is the most versatile power window kit available and is simple to install. This lift kit completely replaces your old crank handle and regulator.

Complete kits contain lower glass channel, GM switches, complete wire harness with switch and motor plugs and flexible stainless steel wire conduit kit for door opening. This regulator only requires 8 1/2 inches of clearance beneath the glass and bottom of door. All SPW Power Wonder-Lift kits contain written and video instructions.

All power window kits can be ordered with switches and wiring for door mounting or for console mounting. Door mounting will include one dual and one single switch with proper wiring. Console mounting will include one dual switch with proper wiring. Our kits can also be ordered without switches and wiring, these kits will include motor leads.

*PWL-2C with chrome switches*

**PWL-2P** (Partial Kit) does not include switches, wire harness or flexible wire conduits. (Includes motor leads.)

**PWL-2C** (Complete 2 Window Kit) with standard chrome switches.

**PWL-4C** (Complete 4 Window Kit) with standard chrome switches.

For special wiring needs call factory.

## SPW POWER WONDER-LIFT

(Modified)

LIMITED LIFETIME WARRANTY

The modified SPW Power Wonder-Lift is used in unchopped Tall T's and other limited space applications. This regulator only requires 5 1/2 inches of clearance beneath the glass and bottom of door.

It does require a larger access hole for installation than our SPW Power Wonder-Lift.

## SPW 2416 U Gear-Drive Kits

LIMITED LIFETIME WARRANTY

The SPW 2416 U Gear-Drive Kits work well in cars that have glasses at least 24 inches from front to rear and that do not require more than 16 inches of lift. These are gear driven regulators that utilize OEM motors.

The Extremeliner - Posies

**2416U-2P** (Partial Kit) does not include switches, wiring or flexible wire conduit.

**2416U-2C** (Complete 2 Window Kit) please specify switches.

**2416U-4C** (Complete 4 Window Kit) includes standard chrome switches.

## SPW SPECIAL MODEL A FORD KIT

LIMITED LIFETIME WARRANTY

AS NEAR A BOLT-IN AS POSSIBLE!

The SPW Model A Ford Kits are designed specifically for Model A Fords and for ease of installation; there are only 4 holes to drill in each door (templates provided) and minor flange trimming. This kit uses the popular GM-style motors. As with our other quality kits, everything you need is included. Your Model A street rod will cruise in style with a set of SPW windows.

**2631-MA**  
*chrome switches shown*

**2631MA-2P** (Partial Kit) does not include switches, wiring or flexible wire conduit.

**2631MA-2C** (Complete 2 Window Model A Kit) please specify switches.

**2631MA-4C** (Complete 4 Window Model A Kit) includes standard chrome switches.

## SPW Custom Kit for 1946-48 Ford Convertibles & Coupes

LIMITED LIFETIME WARRANTY

Designed specifically for the '46-48 Ford convertibles and coupes, these custom Ford kits have genuine GM-style motors and are engineered for easier conversion to power windows. With a few modifications, your fat fendered Ford will power up with ease.

*4648FDCV-4C shown*

**4648FDCV-4C** (Complete Four Window Convertible Kit) Includes standard chrome switches.

**4648FDCCP-2C** (Complete Two Window Coupe Kit) Includes standard chrome switches.

## SPW Classic '55-57 Chevy Kits

### LIMITED LIFETIME WARRANTY

Street enthusiasts who are updating their classic Chevy cars will appreciate these kits, which offer the late-model convenience of electric windows with easy installation.

In all cases, the front door units are a straight bolt-in conversion.

On the 2-door sedan and hardtops, two holes are drilled for the quarter glass regulator (template provided).

SPW Classic '55-57 Chevy Kits use the rugged GM-style motors. The new GM switches provided are not exactly like the originals; these switches are not for original restorations.

Note: 4-door sedans & 4-door wagons use Power Wonder-Lift (see page 1).

## SPW Classic Chevy Pick-Ups

### LIMITED LIFETIME WARRANTY

Chevy truck enthusiasts who are updating their classic trucks will truck in style with SPW Classic Chevy Pick-Ups electric windows. We have custom units for the different year models. Every SPW unit comes with all of the mounting hardware and instructions specific to that body style.

*6772CHVPU-2C chrome shown*

**6772CHVPU-2P** (Partial Kit) does not include switches, wire harness or flexible wire conduits. For 67-72 Chevy Trucks.

**6772CHVPU-2C** (Complete 2 Window Kit) please specify switches.

**5559CHVPU-2P** (Partial Kit) does not include switches, wire harness or flexible wire conduits. For 55-59 Chevy Trucks.

**5559CHVPU-2C** (Complete 2 Window Kit) includes chrome switches.

**4754-PU-WO/V2P** Partial Kit (w/o vent). For 47-54 Chevy Trucks. See note.

**4754-PU-WO/V-2C** Complete (w/o vent). includes chrome switches. See Note.

**4754-PU W/V-2P** Partial (with vent). For 47-54 Chevy Trucks that have factory vent windows.

**4754-PUW/V 2-C** Complete (with vent)

*Note: These SPW Classic Chevy Pick-Up Kits are for vehicles manufactured without vent windows. If you remove factory vent windows, use the Power-Wonder Lift on page 1.*

## RGK REAR GLASS

### LIMITED LIFETIME WARRANTY

SPWs universal rear glass kit comes complete with switch and wiring harness. It has a maximum lift of 9" and is designed to go through the drain trough on many original cars. It also includes a new lower glass channel.

**RGK**

## SPW GM 1960'S - 70'S

LIMITED LIFETIME WARRANTY

We have kits to fit most GM Muscle Cars, Camaros, early Impalas and early Corvettes. Our Midsize units will fit Chevelle, GTO, Cutlass and Skylark. These units bolt in and do not require any modifications. Drilling may be required.

They come complete with switches and wiring harness. They use late model GM type motors. Switches are chrome GM style but not original.

## SPW DUAL WIPE

LIMITED LIFETIME WARRANTY

Best New Product of the Year at the 1991 NSRA Street Rod Nationals.

This universal SPW Dual-Wiper Drive Kit has two wiper shafts, which accepts arms that fit 1/2 inch fine spline knurls, or 1/4 inch shafts.

The output shafts are driven by a remote mounted commercial duty 2-speed wiper motor, with 300 in. lbs. Stall torque. The sweep is adjustable from 90° to 160° in 10° increments.

SPW Dual Wipe Kits are available with 2-speed intermittent self-park or 2-speed standard self-park switch kits. Two-speed switch kits are available with either rotary (knob) or black rocker switch .

*Note: SPW Dual Wiper Kits are best suited for cars under construction.*

**WWK2** Complete SPW Wiper Drive Kit with standard 72" drive cable and 2-speed rotary (knob) switch kit.

# SPW BILLET ALUMINUM ARMS AND BLADES FOR FLAT WINDSHIELDS ONLY

DESIGN PATENT APPLIED FOR

SPW arms and blades come in 10-inch lengths allowing for custom fitting which requires drilling and threading. SPW arms and blades have an adjustable blade angle feature. SPW arms are packaged one to a box and shipped with a brush finish only. You finish to suit your needs.

**WAB-01** Straight

**WAB-01 BR** Bent Right

**WAB-01 BL** Bent Left

**WAB-01** Assembled

## SPW STAINLESS STEEL ARMS & BLADES

SPW stainless steel arms are available straight, bent right and bent left. SPW arms are adjustable. SPW stainless steel wiper blades are available for flat glass (cut to length) or in 9", 10" and 11" curved glass lengths. Replacement blades are available. See price sheet for part numbers.

## SPW POWER WINDOW & WIPER ACCESSORIES

### Stainless Flexible Wire Conduits

**FWC** 1/2" O. D. Holds 10 Wires

**XL FWC** 3/4" O.D. Holds 16 Wires

SPW conduits will protect your door wiring and give your wiring a professional finished look. SPW conduits are packaged with all of our complete power window kits, but are available separately. Each kit comes complete for 2-doors. For 4-door cars order 2 kits. (If using a 4-button Master Switch, use XLFWC on front doors.)

**XLFWC**

**FWC**

**TS-1** **TOGGLE SWITCH KIT**

A weatherproofed, marine-type switch kit that is mounted under the running board or other hidden locations outside the car to lower the drivers window. The hookup is a simple, three wire installation and is an economical substitute for a remote control, or simply used as backup in case you lock your transmitter in the car.

**PP-1**

The SPW PP-1 pre-wired relay socket comes with a 5-terminal relay and 8 ft. of wiring. PP-1 is used to power any motor in one direction and can operate with any remote control or switch on any motor. To run one motor in two directions, such as up and down, order 2 PP-1 kits. SPW PP-1 kits include a wire diagram.

**WLRC**

The SPW lower glass channel and lift bar kits help to stop glass rocking where glass has been cut too short front to rear. The SPW WLRC easily replaces the lift bar on Power-Wonder Lift units.

## SPW CUSTOM ALUMINUM SWITCH BEZELS

Give your car the hi-tech look with SPW billet aluminum switch bezels available in either round or oval design. The round is only available ball-milled. The oval is available smooth or ball-milled. See price sheet for part numbers

**UC-1 & UC-2** SPW's universal side run channels are for the car builders who need rigid side run channel for replacement of originals or for custom building. Both channels are 23" long and come with threaded weld studs and nuts. The UC-1 channel is for run channel up to 9/16" wide and the UC-2 is for run channel up to 13/16" wide.

---

### UB2 Universal Bezel Kit

All aluminum-unfinished. Bezels are cut at a 45° angle. Sold in pairs.

*Note: Angles can be changed with a belt sander.*

**UB2-15** Same as UB2 except cut at a 15° angle.
