

# CLOPAY COMMERCIAL – MODEL 3591S replacement slab solutions

**Clopay®**

## POLYURETHANE INSULATED SHIPLAP SECTIONS WITH RIBS

Clopay 3591S sections feature a 3-layer, polyurethane insulated shiplap design. Ideal for use as a replacement section solution for most commercial and industrial applications.

[clopaycommercial.com](http://clopaycommercial.com)

Steel skins are protected through a tough, layered coating system, including a hot-dipped galvanized layer, a protective metal oxide pretreatment and a baked-on primer and top coat.

The 3591S sections feature a common design ribbed embossment and shiplap section joint, making it a versatile replacement section solution for many commercial service applications. 3591 sections are designed with a continuous backer strip running the top and bottom of the section, allowing them to be cut any length. The backer strips can accommodate full-body center hinges or Clopay's combination center hinge.

## FEATURES

### MATERIALS AND CONSTRUCTION

Panel Thickness 1-5/8" (41 mm)

Insulation CFC and HCFC-free polyurethane

R-value 14.86\*

Thermal Break Continuous foam

Section Joint Shiplap

Exterior Steel 28 gauge (.015" min.) (.38 mm)

Exterior Surface Stucco embossed, ribbed

Slab Width 24"7" (7.5 m)

Slab Height 24' or 21' (7.3 m or 6.4 m)

Exterior Colors Standard White and Brown (24" tall sections only)

Interior Color Standard White

End Stiles Available in both 18 gauge single end stile and 16 gauge double end stile

Limited Warranties 10-year delamination  
10-year standard paint  
1-year material and workmanship

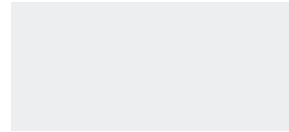

\*Calculated door section R-value is in accordance with DASMA TDS-163.

## PANEL DESIGN

Ribbed

## COLOR OPTIONS

Standard White

Brown

Due to the printing process, colors may vary.
