

Hi TORQUE **IMI** *Performance Products, Inc.*

2017 Edition

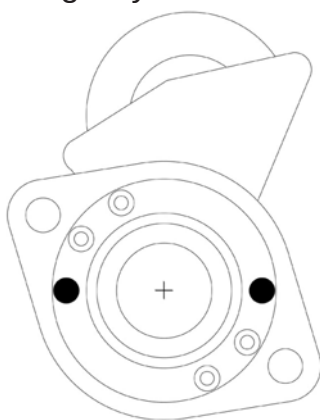

IMI Performance Products, Inc.

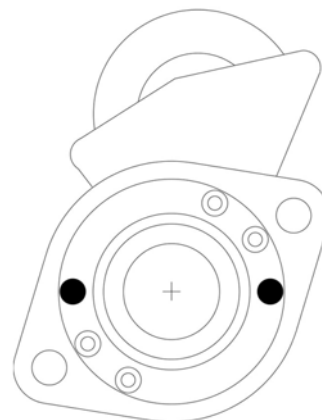

For over a decade **Hi-Torque® IMI Performance Products, Inc.** has developed a range of starters designed specifically for the aftermarket to replace those used in the automotive, marine, off-road, and industrial and agriculture markets. Our design begins with an OEM Denso product, which we believe to be the finest product currently available. When coupled to our US Patented design it affords the end user the highest quality and most reliable starter currently available. Reliability and quality are but two of the three required essential ingredients necessary for successful business. To this we add the key ingredient; customer service.

We continue to discover new and/or different applications as a direct result of inquiries and needs, thanks to our new and existing customers. We pride ourselves with knowing we provide the most flexible and dynamic unit within the market. We carry a full line of 12-V, 24-V, Clockwise and Counter-Clockwise units. Marinization is available to meet SAE J1171 certification. We designate our marine units with the letter M at the end of the part number.

In the event you cannot find a replacement listed in this catalog for your specific application, please call our toll free telephone number 888-244-8675 and allow us to design something for you.

Our patented design allows the end user to re-index the drive end housing to maximize clearance. Simply remove the metric allen head screws, adjust the position of the drive plate, and torque the screws back in place.

All of our units are under the protection of our patents.

- US PATENT Nos. 5,163,335 & RE 35,425
- AUSTRALIAN PATENT Nos. 650151 & 670003
- CANADIAN PATENT No. 2073799-906
- GERMAN PATENT No. 42 23 209

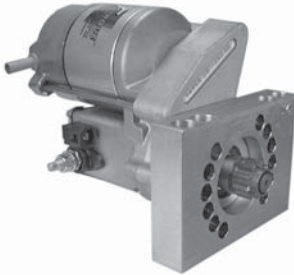

Disclaimer - This catalog is intended for reference purposes only. Hi Torque IMI Performance Products, Inc assumes no liability for any errors and/or omissions. Our units have been designed to replace specific OEM units. Occasionally a unit may not suit the intended application due to fitment issues.

Starter Classifications

IMI Performance Products offers different outputs of Hi Torque starter motors. This starter classification will help you choose the right unit for your application. When a unit is designed we take into consideration compression, timing, and application. Most of our units are available in 12V, 24, CW, and CCW. What can we design for you?

100 Series

- ♦ 1.2kW (1.61HP)
- ♦ 4.4:1 Gear reduction
- ♦ Recommended for up to 11:1 Compression
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing
- ♦ Available in Marine Certified SAEJ1171
- ♦ Available in Chrome polish

N Series

- ♦ 1.4kW (1.88HP)
- ♦ 4.4:1 Gear reduction
- ♦ Recommended for up to 14:1 Compression
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing
- ♦ Available in Marine Certified SAEJ1171
- ♦ Available in Chrome polish

900 & 2900 Series

- ♦ 2.0kW (2.68HP)
- ♦ 3.75:1 Gear reduction
- ♦ Recommended for up to 18:1 Compression
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing
- ♦ Available in Chrome polish

22000 Series

- ♦ 2.2kW (2.95HP)
- ♦ Recommended for diesel applications
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing
- ♦ Available in Chrome polish

25000 and 45000 Series

- ♦ 12V 2.7kW (3.62HP)
- ♦ 24V 4.5kW (6.03HP)
- ♦ Recommended for diesel applications
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing

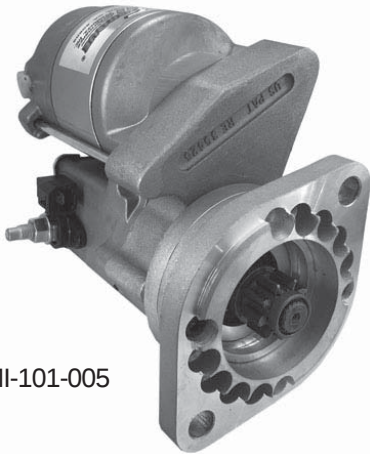

50000 Series

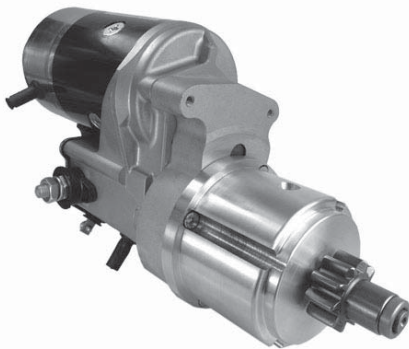

- ♦ 12V 5.0kW (6.70HP)
- ♦ Recommended for diesel applications
- ♦ Machined Aluminum Adapter Block
- ♦ Adjustable drive end housing
