MS. KIM

About Me

I am a proud mom, and family is very important to me. I have a passion for caring for children and creating a safe, nurturing environment where they can learn and grow. I have over 40 years of experience caring for children, beginning at the age of 12, including babysitting, raising two nephews and one niece before having children of my own, and supporting children of various ages, including those with disabilities in both home and school settings. I enjoy building strong, positive relationships with children and their families and believe every child deserves patience, understanding, and to feel safe being themselves.
