

BE PREPARED. GET BACK TO BUSINESS WITH EXPERT DISINFECTION.

ServiceMaster Clean has more than 60 years of experience cleaning and disinfecting hospitals, commercial spaces and other facilities that are at risk for exposure to various infectious diseases.

Our expert, high-quality cleaning starts with training and a thorough, scientific common-sense approach. Using the most effective products and protocols to break the chain of infection helps protect you, your customers and your spaces.

WE CLEAN AND DISINFECT

Disinfection begins with thorough cleaning. Pathogens thrive in dirty environments, so effective disinfection can't occur unless surfaces are cleaned regularly.

WE KNOW THE SCIENCE OF DISINFECTION

We train our people to eliminate pathogens using best practices as described by the Centers for Disease Control and Prevention (CDC). Our high-quality, EPA

registered disinfectants and specialty products cannot be found in stores.

WE ARE YOUR NEIGHBORS

Our nationwide network of more than 400 franchisees puts resources in your local neighborhood, visiting the same places and facilities with a vested interest in the success of your business and the community as a whole. The national resources and support from ServiceMaster's family of brands, combined with our local presence ensures maximum value for your investment.

WE DELIVER

ServiceMaster Clean believes that disinfection services are an opportunity to provide a necessary, valuable service. We take pride in exceeding your expectations.

PLEDGE TO PROTECT

Your customers and employees will thrive in a clean and protected environment when you count on ServiceMaster Clean to thoroughly clean and expertly disinfect.
