

Disclosing Tablets

These tablets will aid in the detection of harmful dental plaque on the teeth. The red color reveals areas overlooked when brushing and flossing.

DIRECTIONS

- ❖ Brush your teeth and rinse mouth
- ❖ Chew 1 tablet. Swish around for 30 seconds. Do not swallow. Spit it out.
- ❖ Rinse with water. The red color remaining on the teeth indicates where harmful dental plaque was overlooked when brushing.
- ❖ Thoroughly remove the DARK RED COLOR by brushing and flossing. The red color will slowly disappear from the tongue and mouth tissue after use.
- ❖ Use these tablets periodically to monitor plaque removal.
