

# Woodland School - Daily Health Screening

---

The Center for Disease Control (CDC) does not currently recommend having schools conduct universal symptom screenings of all K-12 students. However, Woodland School is recommending parents or caregivers monitor their children for signs of infectious illness every day.

**Parents are asked to screen their child(ren) for the following symptoms DAILY before they leave for school.**

Students should not go to school or any school activities or sports if they are having symptoms of COVID-19. If they start having symptoms of COVID-19 while at school, they will need to be sent home. Follow the directions below if your child displays symptoms.

## Symptoms

- Temperature 100.4 degrees Fahrenheit or higher
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache, especially with a fever

If the answer is **YES** to any of the symptom questions, keep your child(ren) home from school and call the attendance line (231) 947 - 7474 to report their absence.
