Available with the TruChoice® Color System, Wayne Dalton's custom painting process that offers more than 6,000 colors. See dealer for details.

*Panel designs and colors shown are representational only. Panel designs may vary based on selected configuration and actual colors may vary due to fluctuations in the printing process. Always request a color sample from your Dealer for accurate color matching.*

# FEATURES

## Effective Joint Seals

Snug-fitting tongue-and-groove section joints reduces wind and weather from entering the garage.

## Heavy Gauge Steel End Caps

Wrap-around end caps trim out door edges for better appearance, improved strength and protect the insulation from damage.

## Silent Glide Rollers

Nylon rollers with solid steel shafts provide years of smooth, quiet and dependable operation.

## High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

## Wind Load Options Available

with structural reinforcements for use in coastal or high wind regions.

## Limited Lifetime Warranty

# THERMAL PERFORMANCE

## Foamed-In-Place Polyurethane Insulation

Thermally efficient with a U-factor\*  of .15 and an R-value\*\* of 12.12 for Model 8300 and a U-factor\*  of 0.12 and an R-value\*\* of 16.22 for Model 8500.

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.

\*U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.

\*\*Wayne Dalton uses a calculated door section R-value for our insulated doors.
