FRAMELESS SHOWER DOOR HARDWARE • GLASS MACHINERY • SLIDING SYSTEMS

- Frameless Double Bypass
  - Shower Hinges
  - Glass Clamps
- Shower U-Channel
  - Handles
- Barn Door Hardware
  - Header Systems
  - Bottom Sweeps
  - Sliding Systems
- Hydraulic Patch Hinges

## **ELEMENT FRAMELESS DOUBLE BYPASS SLIDING SHOWER DOOR SYSTEM**

**NEW**

**NEW Matte Black  
Finish In Stock!**

### **PRODUCT SPECIFICATION:**

- Easy installation
- For 3/8" tempered glass
- Max weight: 220LBS
- Brushed nickel and chrome

### **Finishes Available**

- 73" Stainless steel header track
- Fully frameless double sliding glass design
- Equipped rollers with anti-jumping device
- Adjustable rollers for smooth sliding
- Splash proof threshold to prevent water spillage (minimum threshold depth of 3 3/4 in. (95 mm) required)
- Optional 24" center to center towel bars

Optional Towel Bar

## ■ STREAMLINE SLIDING SHOWER DOOR SYSTEM

180-degree Streamline Series Sliding System has an entirely different look from traditional sliding systems. The use of minimal hardware provides a frameless look that gives the enclosure an almost floating appearance. Specially designed roller bearings allow for quiet and easy opening and closing of the door. One sliding panel and one fixed panel make the Streamline Series both practical and beautiful.

## STREAMLINE OIL RUBBED BRONZE SLIDING SHOWER DOOR SYSTEM

180-degree Streamline Series Sliding System has an entirely different look from traditional sliding systems. The use of minimal hardware provides a frameless look that gives the enclosure an almost floating appearance.

Specially designed roller bearings allow for quiet and easy opening and closing of the door. One sliding panel and one fixed panel make the Streamline Series both practical and beautiful.

- System Features One Sliding Door and One Fixed Panel
- Use Monolithic Tempered Glass
- Specially Designed Roller Bearings for Quiet Door Movement
- Fixed and Sliding Panels May Be Reversed for Installation
- Polished or Brushed Stainless Steel Finish
- For 5/16" to 3/8" (8 to 10 mm) thick Tempered Glass (Not Included)
- U-Channel or Glass Clamps for Fixed Panel Must Be Ordered Separately

## ■ BAYLINE DOUBLE BYPASS SHOWER K.D.

### Designed for Use with 1/4" or 3/8" (6 or 10 mm) Glass

- Two popular stock finishes to select from-through-glass, top hangers for immediate installation, with no waiting for silicone to dry
- Double roller top hanger for 3/8" (10 mm) glass
- K.D. kits include two 24" single-sided towel bars with low profile end cap, all necessary aluminum extrusions, nylon rollers, bottom guide, screws, and bumpers (glass not included)
- Towel bars, and top hangers require holes in glass

### Finishes Available

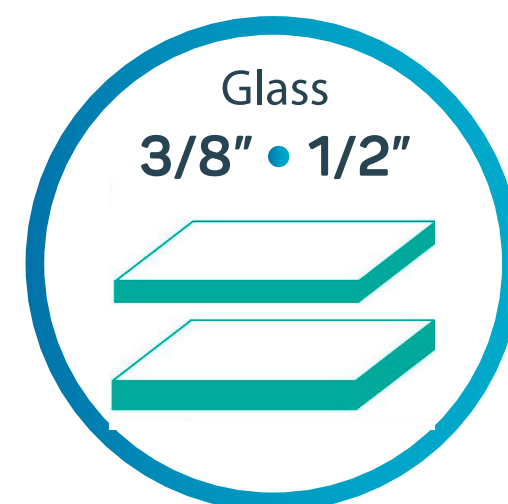

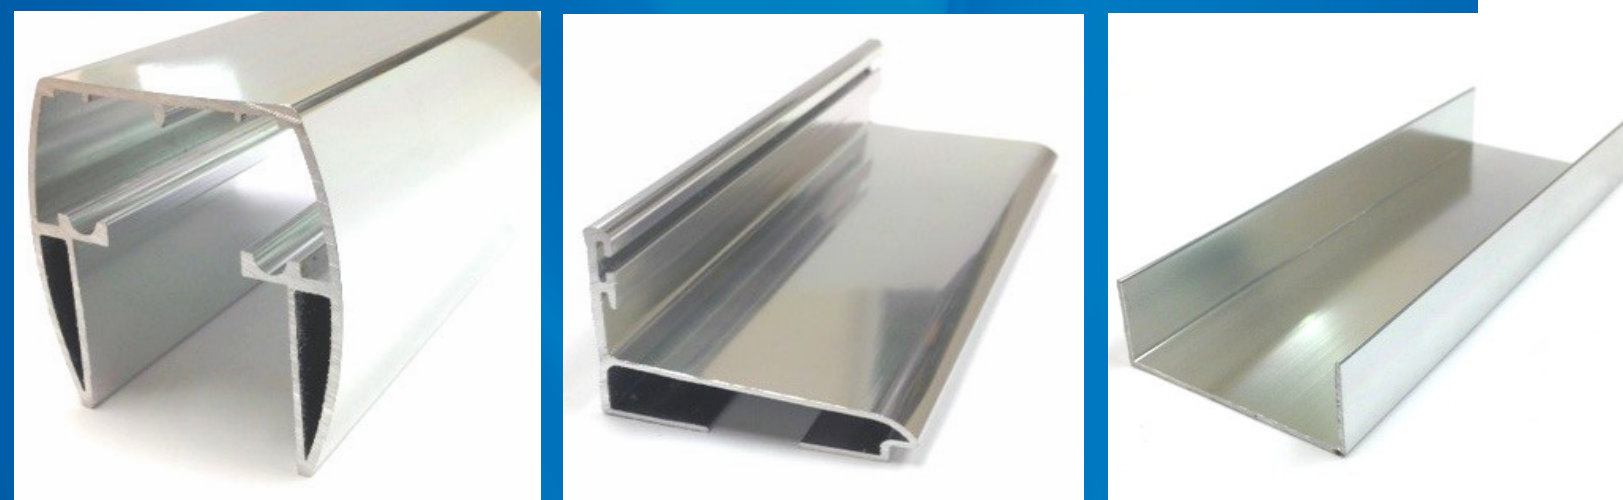

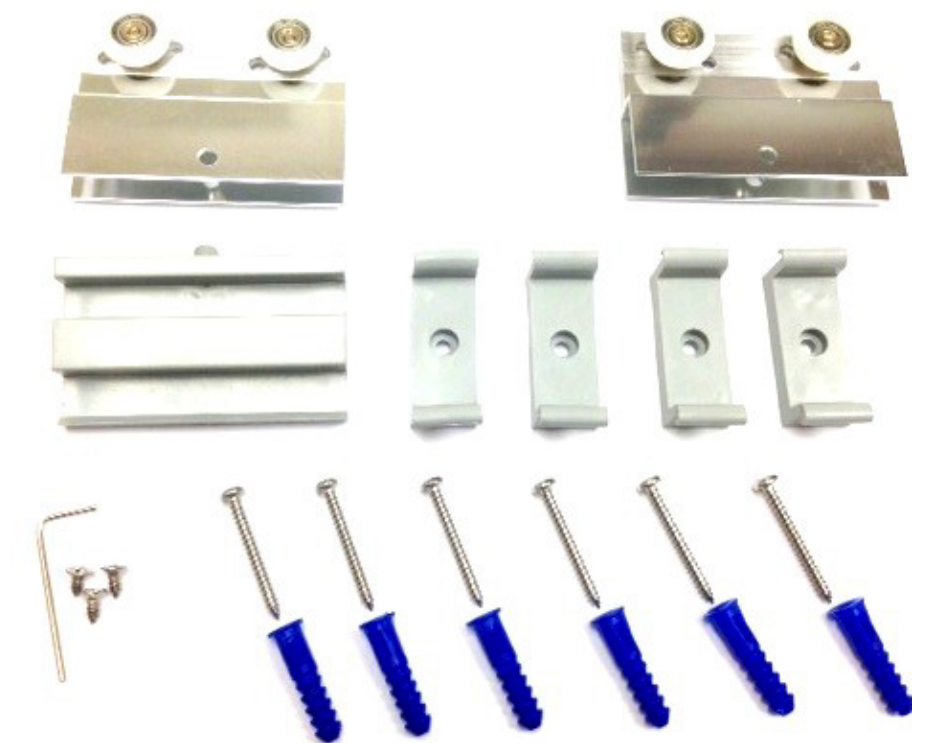

Chrome

Brushed Nickel

### Stock sizes:

- 60" wide x 72" high
- 72" wide x 80" high

## COVERT 144" SERIES SOFT CLOSE DOUBLE DOOR SLIDING W/ DOUBLE FIX PANEL

Side View of fixed glass panel u-channel adapter Installed (Sold Separately)

Our Fixed Panel Adapter Channel slides directly in the appropriate slot on the bottom of header track to secure fixed panels of glass

- Covert interior sliding glass walls are ideal for office fronts, conference rooms, bathroom and bedroom entrances, shower enclosures, etc.
- Glass panels held through high weight capacity pressure clamps with no glass drillings (use of tempered or laminated glass)
- Hydraulic soft-close feature prevents slamming
- Reduces noise
- Protects the glass
- 5-year warranty
- Tested to 100,000 cycles
- Soft closing sliding system for interior partitioning
- Soft closing technology ensures comfortable door operation, and allowing gentle opening and closing without shock or vibration
- Predrilled starter holes on centerline for easy mounting
- Ceiling mountable
- Surface mountable
- Glass mountable

## ■ COVERT 144" HEAVY DUTY SERIES SOFT CLOSE SLIDING SYSTEM

### MAX WEIGHT– 330LBS!

- Single Door hardware kit
- Double Door hardware kit
- Fixed panel u-channel adapter 72"
- Track to glass adapters
- NEW-3/8" spacer filler 78-3/4" length

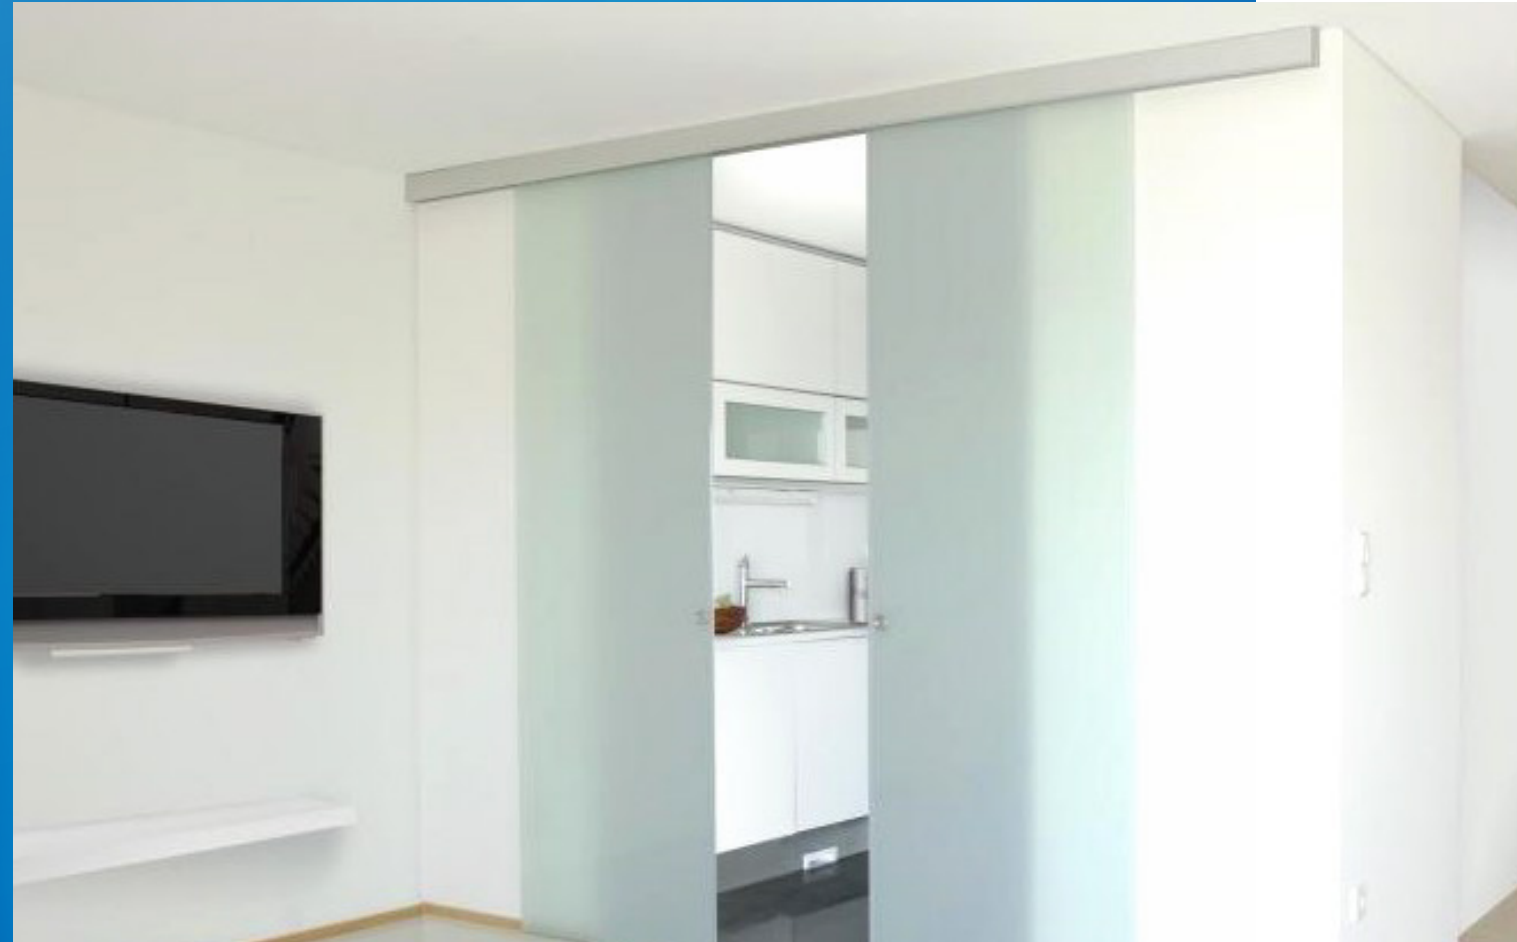

- Hydraulic soft-close feature prevents slamming
- Reduces noise
- 5-year warranty
- Tested to 100,000 cycles
- Predrilled starter holes on centerline for easy mounting
- Ceiling mountable
- Surface mountable
- Glass mountable

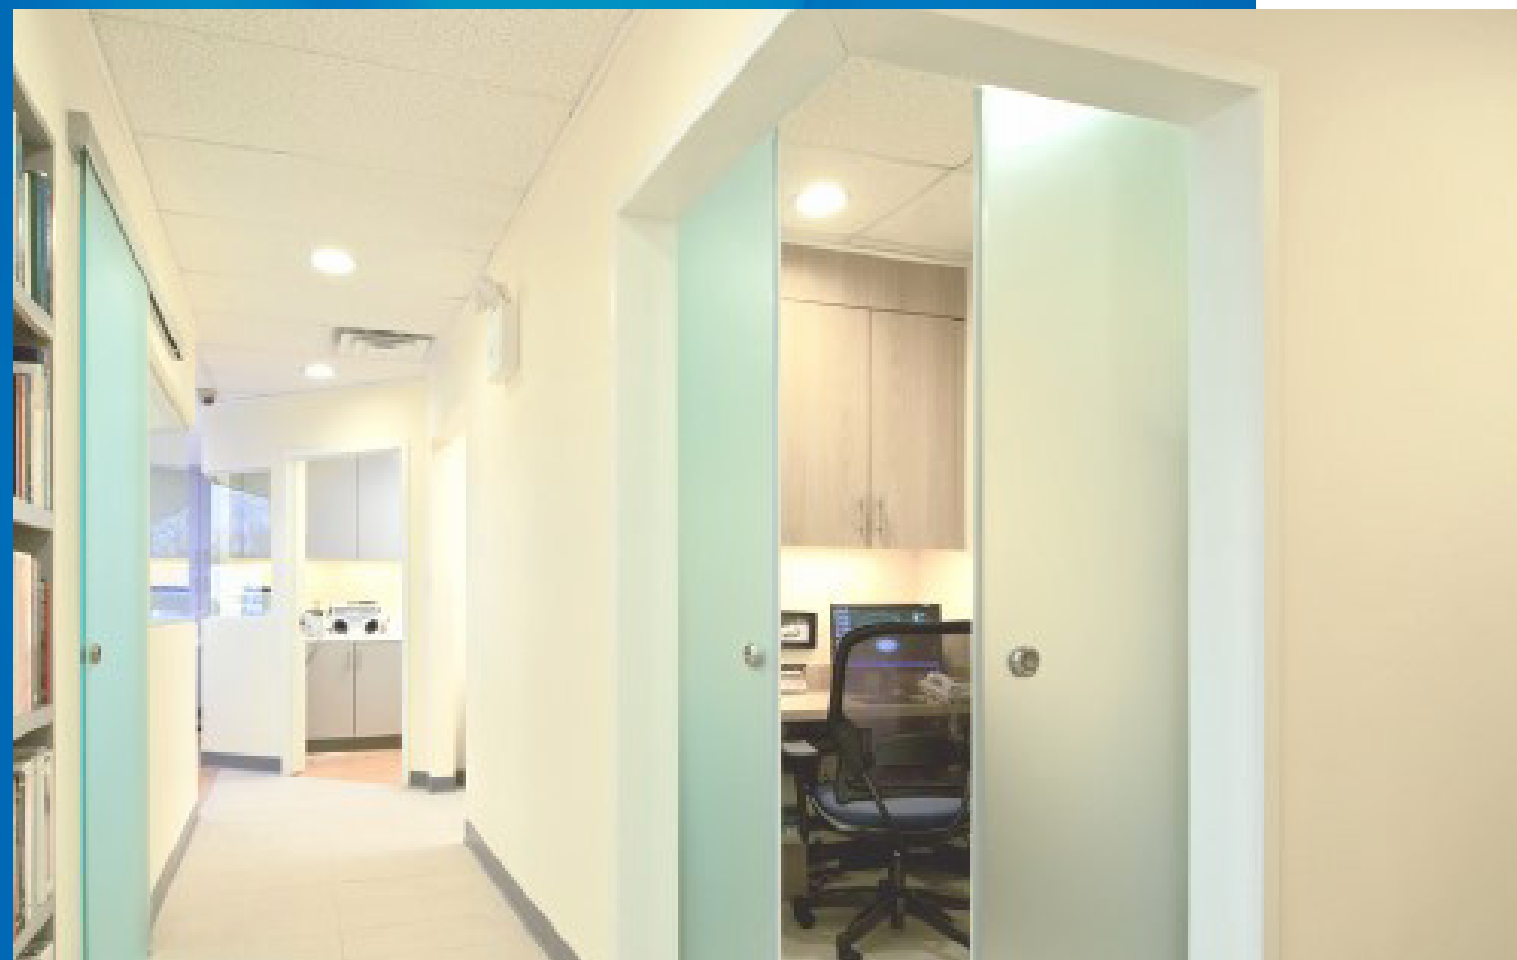

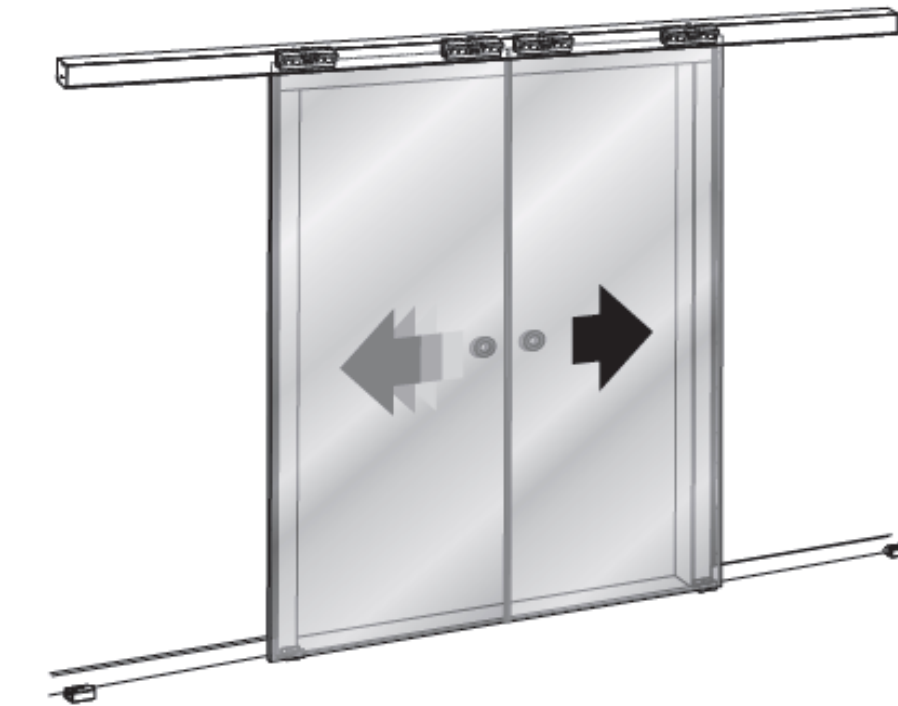

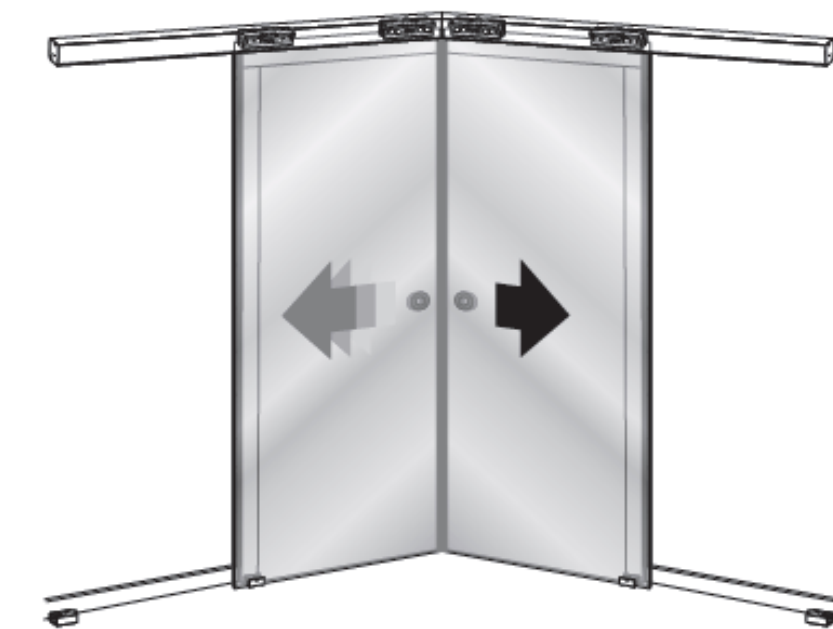

## ■ COVERT 144" SERIES SOFT CLOSE SLIDING SYSTEM

- 180° Surface Application with bi parting doors
- Minimal gap between the doors and the wall to enhance aesthetic and acoustical features
- Use of 3/8" and 1/2" glass doors

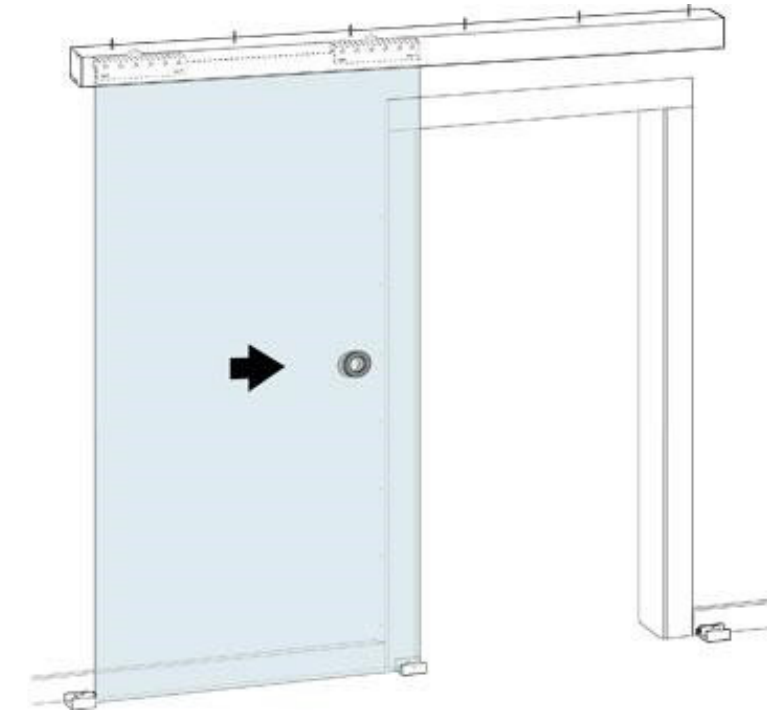

- 90° Corner Unit application with bi parting doors
- Ideal for offices partitions, conference rooms, bedrooms entrances, lounges, etc. Minimalist design with a compact Header track holding panels up to 10" high
- Minimal gap between the doors and the wall to enhance aesthetic and acoustical features
- Use of 3/8" and 1/2" glass doors up to 330lbs

## ■ FLUX POLISHED CHROME SERIES INTERIOR BARN DOOR HARDWARE

### Flux Sliding System Features:

- Anti-lift features for added safety
- All 316 alloy brushed stainless steel construction
- Ideal for interior applications
- For use with 3/8" tempered glass
- Maximum door weight: 220 lbs.
- Maximum panel width: 53-1/2"
- Maximum panel height: 98-7/16"
- Maximum track length: 105"

SGS Flux Designer Sliding System will provide an exceptionally smooth ride and travel as well as an aesthetic modern touch to your home or business. The rail system works with a 1" stainless steel tube which delivers improved performance and aesthetic.

It can be used with materials such as glass or wood depending on the environment. This system is ideal for closet doors, bedrooms, bathrooms, office and more. We invite you to browse our site. We believe you will find the right solution to your needs. We offer kits for Flux Sliding System features.

## ■ NO FABRICATION GLASS CLAMPS

GCN-1

GCN-3

GCN-4

GCN-2

- For 1/4" to 1/2" (6 to 12 mm) thick glass
- No glass fabrication required
- Available several styles and finishes
- Use monolithic tempered glass

**SGS Sleeve Over Glass Clamps** can be used to secure a shelf for lightweight articles. Clamps should be secured to wall with screws in studs, or with Molly-type anchors. Nylon tip brass set screws secure the glass.

Clamps will hold glass, with no glass fabrication required.  
Maximum 5" (127 mm) glass protrusion from wall is recommended.

- Only for 3/8" (10 mm) thick glass
- No glass fabrication required
- Available several styles and finishes
- Use monolithic tempered glass

### Finishes Available

Chrome

Brushed Nickel

Oil Rubbed Bronze

## NO FABRICATION GLASS CLAMPS

### SLE-90AJ Adjustable

- For 5/16" to 1/2" (8 to 12 mm) thick glass
- Use monolithic tempered glass
- Adjustable from 90 to 180 degrees
- Solid brass
- Assists with shear forces
- Holds glass panels in position while sealant cures

### SLE-90

- For 5/16" to 1/2" (8 to 12 mm) thick glass
- Use monolithic tempered glass
- solid brass
- Assists with shear forces
- Holds glass panels in position while sealant cures

**SGS Sleeve Over Glass Clamps** are designed to provide a mechanical fastener to cover the shear forces placed on the glass panels. No special fabrication of the glass is required. Can also be used to secure the glass panels in position while the applied silicone sealant in the joint cures (the silicone sealant glues the glass panels together, prevents water leakage, and provides the pull strength to keep the panels from separating). Clamps are secured in place by nylon tipped allen set screws.

**NEW**

## SHOWER DOOR SEALS, WIPES AND STRIKES

**NEW**

**PART# PVC-60T**

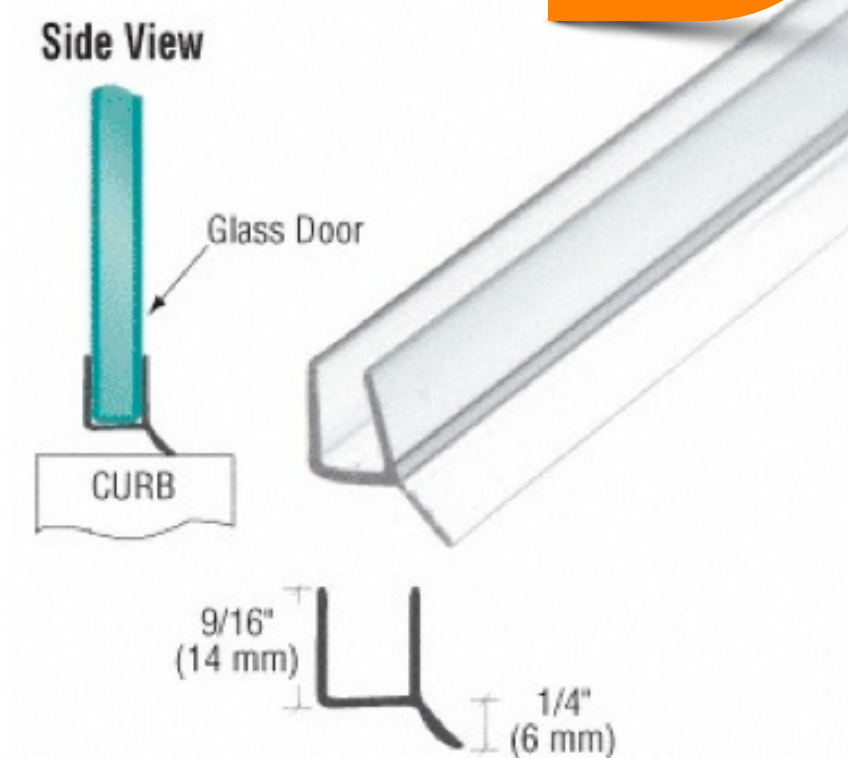

SGS Clear Plastic L-Seal adheres to the glass or wall. Simply peel back the pre-applied tape lining and install. Soft bumper on seal provides quiet door closure.

**NEW**

**PART# PVC-70SLD-3/8**

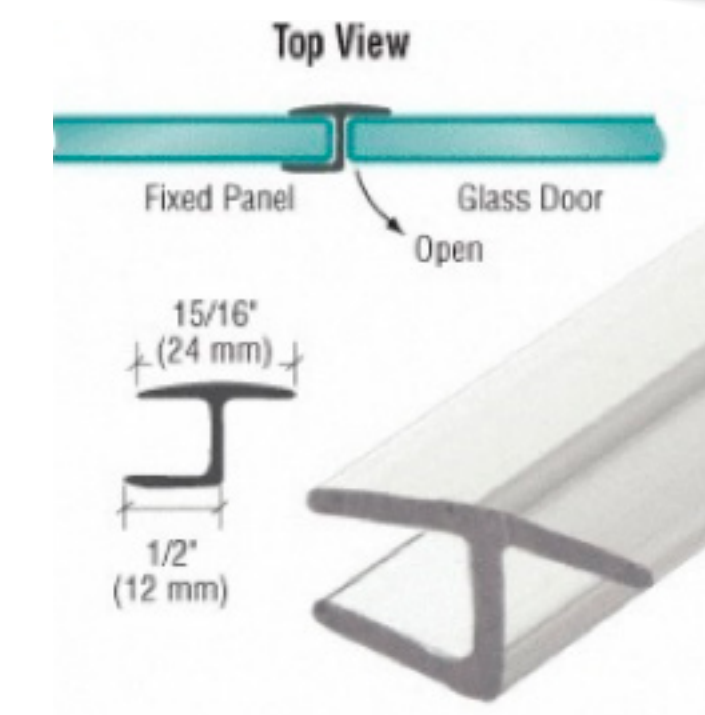

**NEW**

**PART# PVC-14SL-3/8**

Versatile seal can be used as bottom sweep, it can be used vertically behind the hinged doors to help prevent water leakage, and it can also be used for 135° neo angle showers.

**NEW**

**PVC-26-1/2**

**SGS Polycarbonate soft Leg H-Jamb  
180-degree for 1/2" Glass**

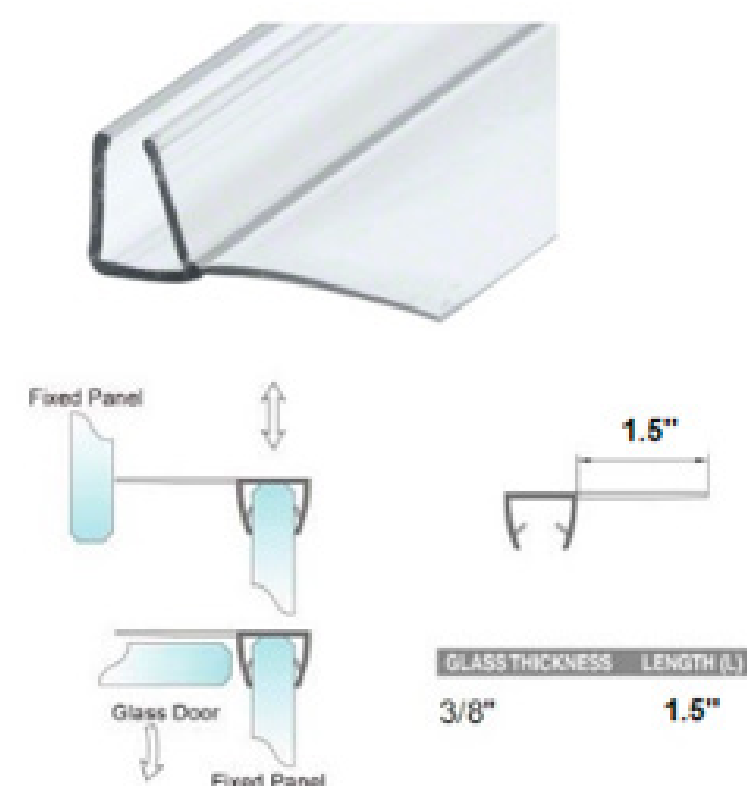

This SGS 'Y' jamb seal strike jamb with firm/soft leg is for use on 180-degree inline glass-to-glass applications. Snaps onto the fixed panel with the lip on the strike side.

The 'u' portion is rigid, and the single leg is firm/soft to cushion the closing and does not allow door to swing in. Snaps onto fixed panel in line with the door.

PS-13-381

**NEW**

## Quatro Sliding System Seal

SGS 3/8" Polycarbonate U with 90-degree Vinyl Fin seal

SGS Polycarbonate 'U' with 90-degree Vinyl Fin seals multiple uses include applying to the sliding door or fixed panel of a Quatro Sliding System, or as a 90-degree seal for a fixed panel meeting a door at 90-degree.

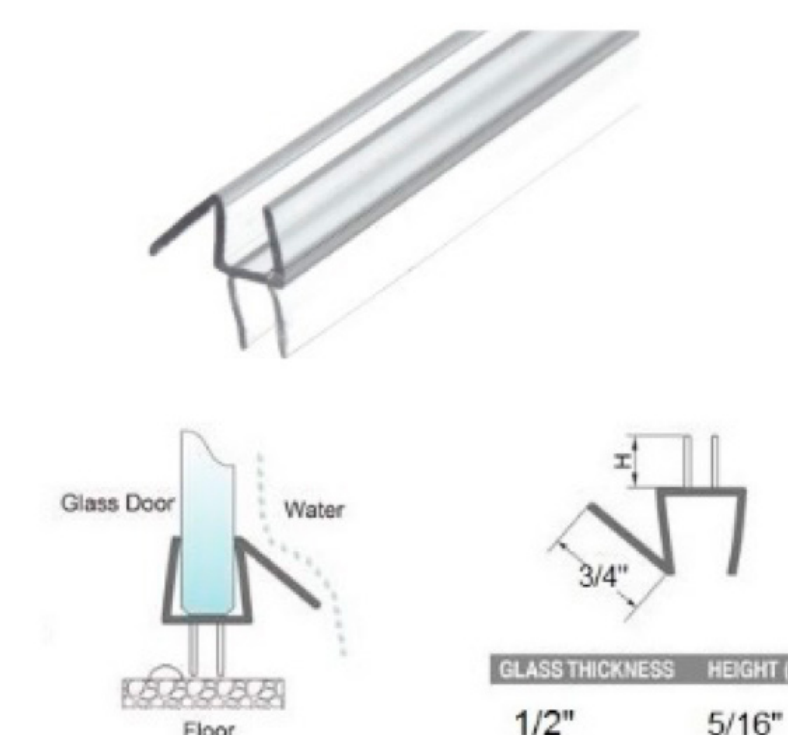

PVC-07-3/8

## SGS Clear Co-Extruded Bottom Wipe with drip rail for 3/8" Glass

The SGS Clear Bottom Wipe with drip rail snaps onto bottom of door. The soft wipes on bottom create a water-resistant seal. 45-degree drip rail sheds water back into the shower.

PVC-07-1/2

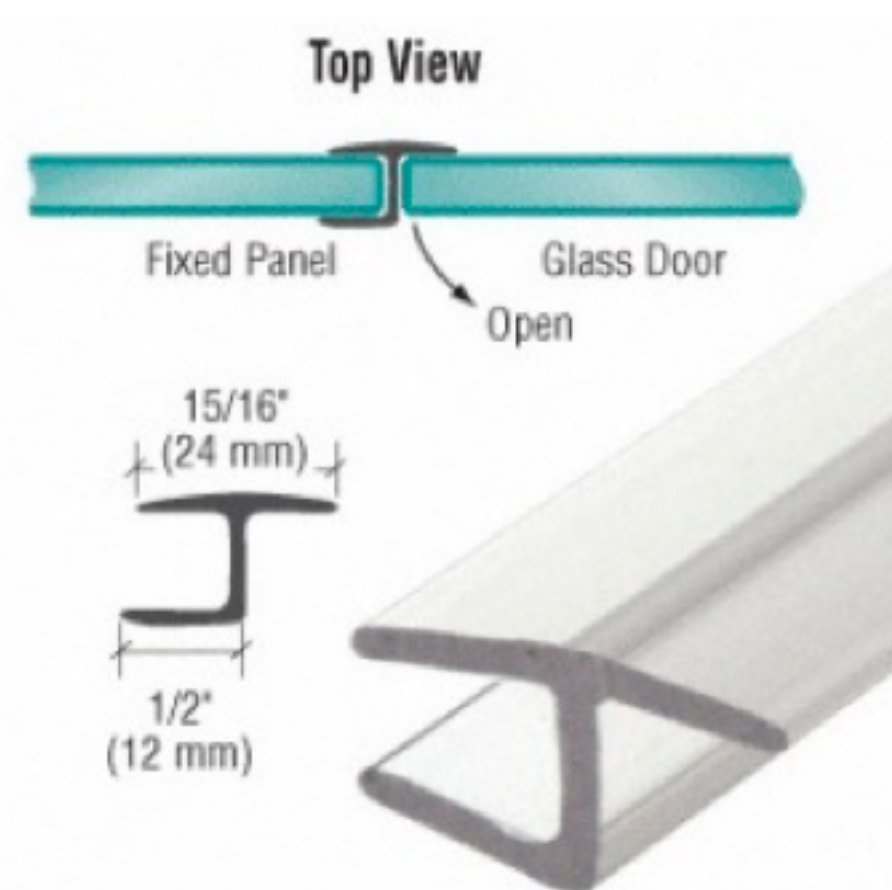

## SGS Clear Co-Extruded Bottom Wipe with drip rail for 1/2" Glass

The SGS Clear Bottom Wipe with drip rail for 1/2" thick glass snaps onto bottom of door. The soft wipes on bottom create a water-resistant seal. 45-degree drip rail sheds water back into the shower.

## SHOWER DOOR SEALS, WIPES AND STRIKES

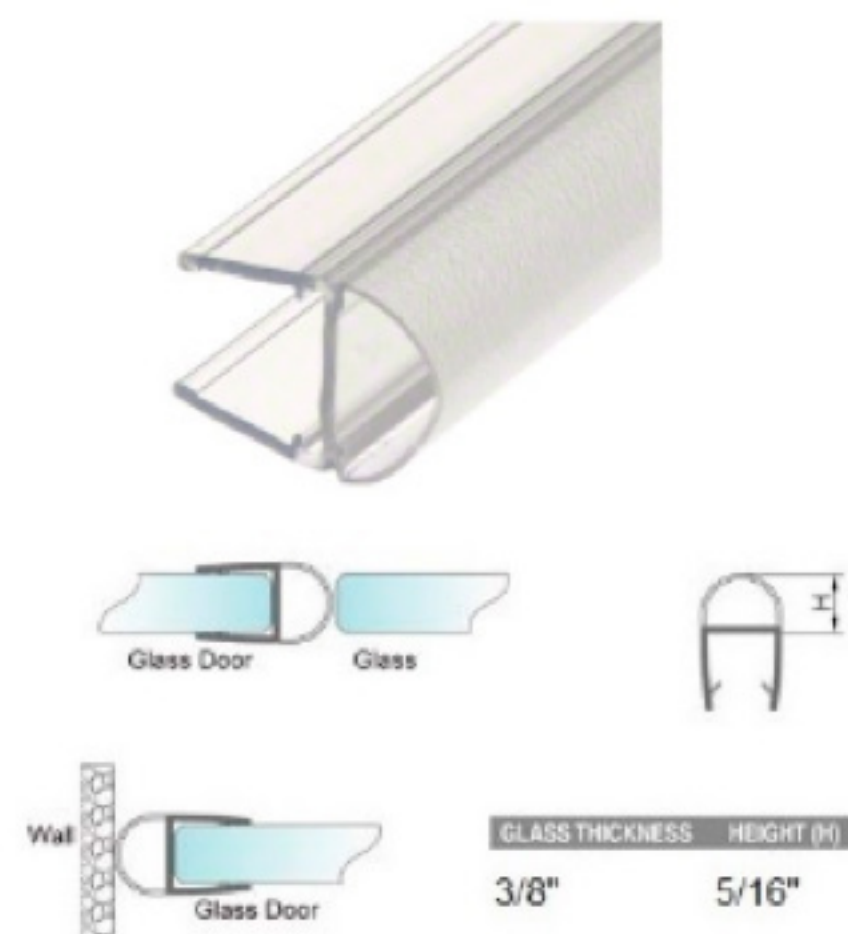

PVC-26-3/8

**SGS Polycarbonate H-Jamb Soft Leg**  
180-degree for 3/8" Glass

This SGS 'Y' jamb seal strike jamb with firm/soft leg is for use on 180-degree inline glass-to-glass applications. Snaps onto the fixed panel with the lip on the strike side. The 'u' portion is rigid, and the single leg is firm/soft to cushion the closing and does not allow door to swing in. Snaps onto fixed panel in line with the door.

PVC-24

**SGS Translucent Vinyl Bulb**  
Seal for 3/8 Glass

The SGS Clear Polycarbonate 'U' with bulb attachment is a versatile seal that can be mounted to the edge of a door or panel for a variety of installation configurations. The soft bulb portion of the seal allows doors to swing both in and out of the enclosure if desired.

PVC-24-1/2

**NEW**

**SGS Translucent Vinyl Bulb**  
Seal for 1/2" thick Glass

The SGS Clear Polycarbonate 'U' with bulb attachment for 1/2 thick glass is a versatile seal that can be mounted to the edge of a door or panel for a variety of installation configurations. The soft bulb portion of the seal allows doors to swing both in and out of the enclosure if desired.

## SHOWER DOOR SEALS, WIPES AND STRIKES

PVC-50

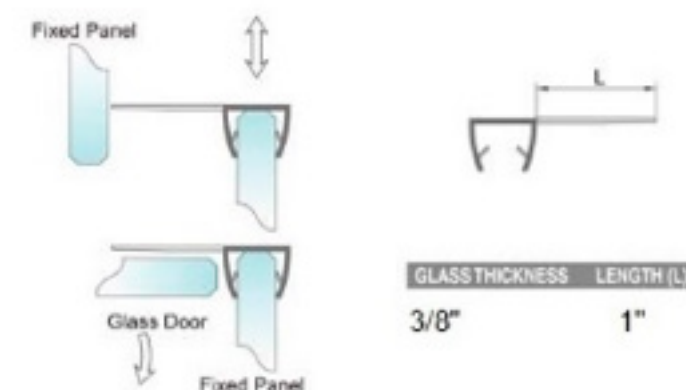

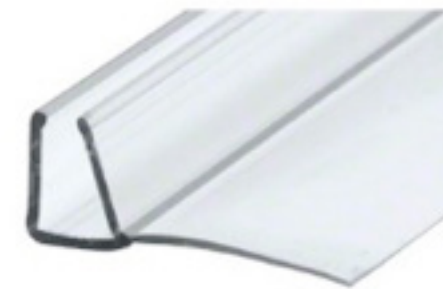

PVC-50

**For 1/4" to 1/2" Thick Glass**

This SGS Clear 'L' Angle Jamb is used for both hinge and strike jambs. It can be adhered to the wall or a fixed panel using clear very hi-bond tape. It is commonly used as a jamb for neo-angle installations when a clean look is most desired.

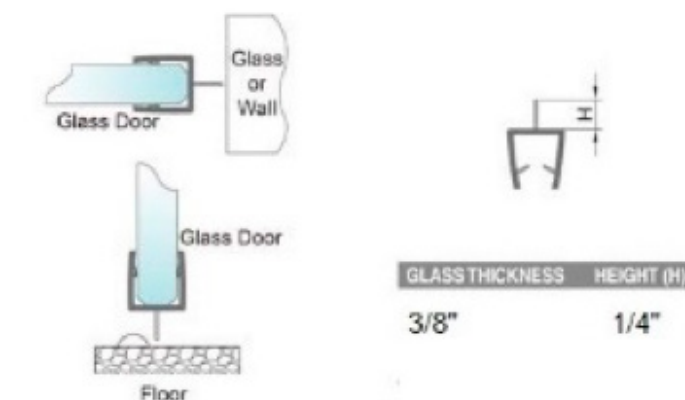

PS-13

**SGS 3/8" Polycarbonate U with 90-Degree Vinyl Finseal**

SGS Polycarbonate 'U' with 90-degree vinyl fin seals multiple uses include applying to the sliding door or fixed panel of a streamline sliding door system, or as a 90-degree seal for a fixed panel meeting a at 90-degree.

PVC-04

**SGS One-Piece Bottom Rail With Clear Wipe for 3/8" Glass**

This SGS One-Piece Bottom Rail is snapped on the bottom of the door to achieve a seal, because it is a single-piece sweep, it means the vinyl seal that hangs down from the sweep will firmly direct the water back into the shower enclosure.

## SGS GLASS T-CUTTERS

### Sizes Available:

- 23-5/8"
- 35-7/16"
- 47-1/4"
- 59-1/16"
- 70-7/8"
- 82-11/16"

SGS Production Oil T-Cutter is the ideal strip cutting tool for any size glass, window or framing shop. Whether splitting sheets for more economical storage, or making repetitive cuts of the same dimension, SGS Production Oil T-Cutter is state-of-the-art in manual strip cutting technology. A large capacity oil reservoir automatically delivers exact amounts of cutting oil to the precision ground carbide cutting wheel ensuring low maintenance and long service life. The easy to read scale makes changing dimensions fast, easy, and accurate. This SGS T-Cutter rides along the edge of the glass guided by rollers to provide a perfect cut parallel to the edge guide.

## ■ SGS GLASS SUCTION CUP LIFTERS

SGS-2CUP-Suction-Lifter

- 2-Cup Powerful Suction Lifter
- Max Carrying Capacity=396lbs (180kg)
- Cup Diameter- 5" (127mm)

SGS-3CUP-Suction-Lifter

- 3-Cup Powerful Suction Lifter
- Max Carrying Capacity=462lbs (210kg)
- Cup Diameter- 5" (127mm)

SGS suction lifter. The textured, powder coated, heavy duty aluminum handle provides excellent grip. This lifter has two and three 5" rubber suction cups. Pushing the tabs on the individual pads down creates the suction on the surface. Designed for use on non-porous surfaces.

Thank you for the opportunity to serve you. Structure Glass Solutions is a premier manufacturer/supplier of frameless shower door hardware, sliding systems, and glass machinery for residential and commercial markets. We have a full line of stylish products in a variety of finishes.

Structure Glass Solutions has a well established track record and our products have always been met with great customer satisfaction. Excellent customer service, quality and value are our most important goals.

We are constantly looking to add new products to our line of hardware. If you have any suggestions or didn't see something you use, please let us know.

We strongly believe that Structure Glass Solutions will become a preferred vendor for your company.
