- **Exact, pre-punched holes** assure structural integrity and allow for a more precise installation. Other brands use slotted holes which cost less to produce but weaken the stability of their pools. Test and compare us to other brands by vigorously shaking the top rail. You can feel the stability.
- **Bottom Rails - Premium-gauge steel** used for the bottom rails is made with a 7-step process to ensure a long, trouble free life. They are backed with a 100% lifetime warranty.

## Liner Exclusives

The only above-ground pool manufacturer that produces virgin-vinyl liner material made to original Doughboy specifications and are available in a variety of patterns.

- **Exclusive "True" Expandable Liners** increase pool depth up to 7 feet with an optional Special-Purpose Deep Swimming Area for underwater swimming only.
- **Exclusive Thermo-Seal™ Technology.**  
This proprietary fusion method provides superior sealing for maximum durability and quality. Unmatched in the industry. We are so confident with this process that we cover the seams of our liners 100% for a lifetime.
