ASSIGNMENT OF BENEFITS / ERISA AUTHORIZED REPRESENTATIVE FORM

Financial Responsibility	O'Leary Chiropractic	*
I have requested professional services from		("Provider") on behalf of myself
and/or my dependents, and understand that	by making this request, I	am responsible for all charges
incurred during the course of said services.	I understand that all fee	s for said services are due and
payable on the date services are rendered an	d agree to pay all such cha	arges incurred in full immediately
upon presentation of the appropriate statemen	it unless other arrangemen	ts have been made in advance.

Assignment of Insurance Benefits

I hereby assign all applicable health insurance benefits to which I and/or my dependents are entitled to Provider. I certify that the health insurance information that I provided to Provider is accurate as of the date set forth below and that I am responsible for keeping it updated.

I hereby authorize Provider to submit claims, on my and/or my dependent's behalf, to the benefit plan (or its administrator) listed on the current insurance card I provided to Provider, in good faith. I also hereby instruct my benefit plan (or its administrator) to pay Provider directly for services rendered to me or my dependents. To the extent that my current policy prohibits direct payment to Provider, I hereby instruct and direct my benefit plan (or its administrator) to provide documentation stating such non-assignment to myself and Provider upon request. Upon proof of such non-assignment, I instruct my benefit plan (or its administrator) to make out the check to me and mail it directly to Provider.

I am fully aware that having health insurance does not absolve me of my responsibility to ensure that my bills for professional services from Provider are paid in full. I also understand that I am responsible for all amounts not covered by my health insurance, including co-payments, co-insurance, and deductibles.

Authorization to Release Information

I hereby authorize Provider to: (1) release any information necessary to my health benefit plan (or its administrator) regarding my illness and treatments; (2) process insurance claims generated in the course of examination or treatment; and (3) allow a photocopy of my signature to be used to process insurance claims. This order will remain in effect until revoked by me in writing.

ERISA Authorization

I hereby designate, authorize, and convey to Provider to the full extent permissible under law and under any applicable insurance policy and/or employee health care benefit plan, as my Authorized Representative: (1) the right and ability to act on my behalf in connection with any claim, right, or cause in action that I may have under such insurance policy and/or benefit plan; and (2) the right and ability to act on my behalf to pursue such claim, right, or cause of action in connection with said insurance policy and/or benefit plan (including but not limited to, the right to act on my behalf in respect to a benefit plan governed by the provisions of ERISA as provided in 29 C.F.R. §2560.5031(b)(4)) with respect to any healthcare expense incurred as a result of the services I received from Provider and, to the extent permissible under the law, to claim on my behalf, such benefits, claims, or reimbursement, and any other applicable remedy, including fines.

A photocopy of this Assignment/Authorization shall be as effective and valid as the original:

INFORMED CONSENT

Chiropractic, as well as other types of health care, is associated with potential risks in the delivery of treatment. Therefore, it is necessary to inform the patient of such risks prior to initiating care. At O'Leary Chiropractic, we take the appropriate measures including but not limited to: a detailed history, examination and imaging when warranted in order to prevent and or minimize said risks. While Chiropractic treatment is remarkably safe, you need to be informed about the potential risks related to your care to allow you to be fully informed in consenting to treatment.

Specific Risk Possibilities Associated with Chiropractic Care are:

<u>Stroke</u>: The latest study to investigate whether a unique association between chiropractic manipulation and risk of cervical artery dissection/stroke exists, has yielded similar findings to past investigations; the authors and researchers note "no excess risk of carotid artery stroke after chiropractic care" and no significant risk difference between patients receiving care from a chiropractor or a primary medical provider. The risk of vertebrobasilar stroke (VBA) associated with a visit to a chiropractor's office was shown to be no different from the risk of stroke following a visit to an MD's office. It is likely that the patients in the early stages of VBA stroke are presenting to both the chiropractors and family doctors because of neck pain and headache due to pre-existing vertebral artery dissection which is a risk factor for VBA stroke. At O'Leary Chiropractic, a thorough history, examination, and screening techniques are performed prior to treatment in order to prevent and/or minimize said risk.

Cassidy JD, Boyle E, Cote P, Et al. Risk of carotid stroke after chiropractic care; a population based case - crossover study. J Stroke Cerebrovasc. Dis, 2016 Nov 21.

<u>Soreness</u>: Chiropractic adjustments are sometimes accompanied with post-treatment soreness which relates to the stretching and moving of tight tissue. This is normal and should only last 24-48 hours. Please advise your Doctor of Chiropractic of the soreness.

<u>Disc Herniation or Prolapse:</u> Gentle chiropractic treatment and related techniques have been found to be beneficial in the treatment of spinal disc herniations. However, spinal disc conditions like bulges or herniations may worsen even with chiropractic care. It is important to notify your chiropractor if symptoms change or worsen. A thorough history and examination are performed prior and throughout treatment in order to prevent and/or minimize said risk.

<u>Rib Injury:</u> Manual adjustments to the thoracic spine, in rare cases, may cause a rib injury or fracture. It is important to notify your chiropractor if you have been diagnosed with a bone weakening disease or condition such as osteopenia or osteoporosis. Treatment is performed with caution to minimize such risk.

Chiropractic is a system of health care delivery and, therefore, as with any healthcare delivery system, we cannot promise a cure for any symptoms, conditions or disease. An attempt to provide the best Chiropractic care is our goal, and if results are delayed or unsuccessful, we will refer you for testing, imaging and/or to the appropriate healthcare provider(s). If you have any questions, please consult your Doctor of Chiropractic at O'Leary Chiropractic.

Having carefully read the above, I hereby give my informed consent to have Chiropractic treatment administered.
