## 2014 Product Catalog

# About Us!

The Willbee family has been a part of Jackson and the surrounding communities for well over 100 years.

Starting in 1907 in Adrian, Willbee Concrete Products produced burial vaults and delivered to cemeteries via horse and carriage or sleigh. The company moved to Jackson in 1911 to better serve their main customer base, and set up shop on Euclid Street where they expanded in 1930 to include concrete block production.

In 1947, Willbee Transit Mix was formed to service the ever expanding construction industry with redi-mixed concrete. The new company operated out of the Euclid Street location until 1973, when the current location on Brooklyn Road was built. Willbee Concrete Products soon followed and still operates today as Willbee Concrete Vaults.

Both companies are still family owned and operated by fourth and now fifth generation family members, and we are proud to be a part of your project.
