

Single Source Energy Solution Provider

Comprehensive Energy Procurement, Management & Sustainability Solutions

Innovation Energy Advisory Services helps organizations optimize energy costs, manage market risk, improve operational reliability, and achieve sustainability goals through customized energy solutions and expert advisory services.

ENERGY PROCUREMENT

- Competitive RFPs for electricity, natural gas, propane, diesel, and DEF
- Supplier evaluation, market analysis, and contract benchmarking
- Licensed and bonded in all 50 states, backed by \$1 million in professional liability insurance

MARKET INTELLIGENCE & RISK MANAGEMENT

- Commodity market insights, price forecasting, and hedging recommendations
- Energy risk assessments, demand reduction, capacity tag management, and peak shaving
- Secondary fuel planning and customized risk mitigation strategies

CONTRACT NEGOTIATION & ADMINISTRATION

- Negotiation of pricing, payment terms, swing tolerances, and default protections
- Contract management, renewal tracking, and supplier performance support
- Invoice reviews, billing disputes, and operational compliance assistance

RENEWABLE ENERGY & SUSTAINABILITY

- Renewable natural gas (RNG) credits and renewable electricity procurement
- Green power programs, solar generation, and diesel biofuel blending
- Scope 1 and Scope 2 emissions tracking and reporting support

ENERGY CONSERVATION & EFFICIENCY

- LED lighting retrofits, variable frequency drives, and capacitor installations
- Soft-start motor controls, co-generation evaluations, and energy efficiency improvements

EMERGENCY ENERGY SERVICES

- Mobile electric generation and mobile compressed natural gas (CNG)
- Solutions supporting business continuity during outages and supply disruptions

MORE THAN AN ENERGY SUPPLIER

A Partner in Your Energy Strategy

At Innovation Energy Advisory Services, we go beyond securing energy supply agreements. We act as an extension of your team, providing ongoing guidance, market insight, contract oversight, and operational support throughout the life of your energy portfolio.

Our single-source approach brings procurement, risk management, sustainability, and energy efficiency together to help organizations make informed decisions and manage their energy needs with confidence.

FROM PROCUREMENT TO PERFORMANCE

A Comprehensive Approach to Energy Management

01 | ASSESS

Understand your energy requirements, usage patterns, existing agreements, operational priorities, and risk exposure.

02 | STRATEGIZE

Evaluate market conditions, supplier options, contract structures, and opportunities for cost control and risk mitigation.

03 | IMPLEMENT

Manage competitive procurement processes, support negotiations, and help put the selected energy strategy into action.

04 | MANAGE & OPTIMIZE

Ongoing market insights, contract management, and supplier support.

MORE THAN AN ENERGY SUPPLIER

Let's Talk About Your Energy Strategy

Whether you're approaching a contract renewal, exploring renewable energy, managing market volatility, or looking for operational efficiencies, Innovation Energy Advisory Services can help you evaluate your options.
