

Enjoy an energy efficient, resilient home with flexible financing. We partner with the Connecticut Green Bank and a network of local lenders to offer low-interest financing with fixed monthly payments to help you upgrade your home's energy performance.

Get Flexible Financing with a Smart-E Loan

A Smart-E Loan can be used for over 60 home energy improvements, from insulation and energy efficient windows to heat pumps and solar panels, to resiliency related projects like battery storage.

You can finance almost any energy improvement that cuts your home's energy costs or produces clean energy on your property.

- ✓ **Easy to apply**
- ✓ **No money down**
- ✓ **Low interest financing**
