

ZINC GLYCINATE

immune system support formula*

Life's Medicine

Serving Size: 1 Capsule
Servings Per Container: 120

Zinc Glycinate features the 100% fully reacted TRAACS® zinc glycinate chelate by Albion® Advanced Nutrition. Zinc is essential for the development and proper functioning of the reproductive organs, including healthy prostate function, and has been shown to support healthy immune system function.* Zinc also supports enzyme activity associated with tissue synthesis, energy metabolism, and bone mineralization.* Zinc Glycinate is readily bioavailable and easily absorbed as an intact chelate.* It is superior to other forms of zinc because it does not get ionized in the gut before it is absorbed.* Instead, it appears to be metabolized in the body right at the target tissue.* Deficiencies in zinc can lead to an impaired immune system, decreased glucose metabolism, hormonal imbalance and slower wound healing.*

One Capsule Contains:

Zinc (TRAACS® zinc glycinate chelate) 20 mg

Other Ingredients: HPMC (vegetable capsule), MCC (microcrystalline cellulose), rice flour, ascorbyl palmitate, silica.

TRAACS and the **Albion Medallion** design are registered trademarks of Albion Laboratories, Inc.

Free of: Milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soy.

Directions: Take one capsule daily or as directed by your healthcare practitioner.
