

Good morning,

My name is Malinda Willis.

I have had the pleasure of Brooks Grease being a vender for both our grease traps and recycling of cooking oil for as long as I have been with Burger King and Taco Bueno which dates to October 1981.

The family own business has always given us great service, fair pricing along with becoming our business of choice in the industry. I have seen their company grow from a one- or two-person team to a multi-state company yet still give us that great personal service we have grown so fond of. Any company that needs the type of grease services they offer will be very happy if they choose this company. We have been approached by other companies through the years but have never entertained the idea of changing. I appreciate their team and the fact that all work so hard to make sure our service is great from the Owner to the people they employ the service is outstanding.

Sincerely,   
Malinda Willis
