

VISCOUNT POOLS of Canton

SALT / CHLORINE PURIFICATION SYSTEM

New Season Start Up

1. After the pool is filled and the filter system is operating properly. Check and adjust the water chemistry (PH, Alkalinity, Calcium and Phosphates) to ensure the new chemicals work correctly, maintain quality swimmer comfort level and to safeguard equipment longevity and warranties remain valid.

(Free water testing at Viscount of Canton)

(PH: 7.2 - 7.8, Alkalinity: 80 - 120, Calcium Hardness: 200 - 300, Phosphates: 0 - 500)

2. Test and adjust the waters Cyanuric Acid (Stabilizer or Conditioner) to stabilize Chlorine.

(Cyanuric Acid: 30 - 75) * Slow dissolving chemical, put in a nylon or sock and hang in front of the pools return jet. This may take a few weeks to dissolve in cold water.

3. Add _____ oz. **Viscount Poly 30 Algaecide** (12 oz. per 10'000 gallons)

4. Add _____ lbs. **Pool Shock** (1lb. per 10'000 gallons of fresh water) Circulate 24 hours

(If water is cloudy or discolored Double Shock with 2lbs. per 10'000 gallons)

5. Add _____ lbs. **PRO's PICK Quick Dissolving Pool Salt** to Pool (3200 ppm) Circulate 24 hours before turning on Salt Chlorine Generator. Salt may take a couple days to completely dissolve.

(7 Bags / 280 lbs. per 10'000 gallons) or (14 Bags / 560 lbs. per 20'000 gallons)

Weekly Maintenance

Once a Week:

1. Check Water Chemistry and adjust if necessary. (PH, Alkalinity & Calcium)
2. Check Chlorine level and adjust **Desired Output %** to maintain chlorine level between 2-5ppm.
(May need to adjust multiple times a year depending on water temperature and circulation)
3. Add _____ oz. **Viscount Poly 30 Algaecide** (4oz per 10'000 gallons)
3. Add _____ oz. **Viscount Nature Clear Enzyme Treatment** (4oz per 10'000 gallons)
4. Salt Cell must be cleaned 3 times per season to insure proper chlorine generation. (A 4:1 water to muriatic acid is a common solution. (* **ALWAYS** add acid to water and stand cell with cord side down. Most cell manufacturers sell stands separately to help with the cleaning process)

*** Viscount of Canton recommends to **Filter / Circulate** your pool water on **High Speed 12 hours daily**
(night time filtration is more effective and cost efficient) or **24 hours on a Lower Speed** ***
