

LUXCLEAR Technology

WORLD-CLASS PROTECTION.

ULTIMATE CLARITY.

ANTI-CORROSION GLASS

Glass requires care to maintain its shine, transparency and attractiveness. Exposure to water, heat and high humidity can "age" these surfaces making them look less than pristine. Your glass looks dull or dirty, and the longer it is exposed to these elements, the older it will appear.

LUXCLEAR Protect by AGC, the world's largest flat glass manufacturer, offers a solution to these common sources of contamination. This permanent, coated glass product protects the surface of the glass by preventing corrosion.

Unlike aftermarket products, the LUXCLEAR Protect coating fuses with the glass and permanently seals the glass surface to prevent the glass from appearing hazy and dull due to exposure.

LUXCLEAR Protect requires no special cleaning solutions or processes. Just clean as you would any other glass surface, using a soft cloth, sponge or a paper towel.

AGC provides best-in-class service, technical assistance and guidance for all its products. Our responsive customer service team are eager to help with your needs.

WHAT MAKES LUXCLEAR PROTECT WORLD-CLASS?

	Permanent Coating, Permanent Protection	Liquid Aftermarket Solution (Hand Applied)	Requires Periodic Reapplication or Revitalization	Available Tempered Only	Hydrophobic (water beads)	Self-Cleaning	Cost Indicator
LUXCLEAR® Protect	X					NO	\$\$\$
Other Shower Protected Glass	X			X		NO	\$\$\$\$
Aftermarket Solutions		X	X		X	NO	\$\$

LUXCLEAR Protect employs cost-competitive technology that eliminates the need to consider labor-intensive aftermarket solutions that require periodic reapplications.

LUXCLEAR Protect offers a Limited Lifetime Warranty

Visit www.luxclearprotect.com and register your installation online within 30 days to activate the Limited Lifetime Warranty.

INSTALLATION & CARE

- > LUXCLEAR Protect must be installed with the coated surface facing the area exposed to water, heat, and high humidity.
- > LUXCLEAR Protect must be cleaned in accordance with the GANA 01-0300 bulletin on how to properly clean coated glass.
- > It is important to note that anti-corrosion glass is not self-cleaning or scratch resistant.
- > Clean LUXCLEAR Protect with Clorox®, Greenworks®, Fantastik®, Lysol®, Mr. Clean®, Magic Eraser®, Soft Scrub®, Sprayway®, Ammonia Free Glass Cleaner, Tilex®, Vinegar, or Windex® for optimal results.
- > DO NOT USE Comet®, Ajax® or other abrasive cleaners.
- > DO NOT USE Brillo® pads, steel wool, or other abrasive pads or brushes.
- > DO NOT USE razor blades or other sharp tools to clean glass.
- > Always use a soft cloth, paper towel, or sponge.
