

WE HAVE PRODUCTS FOR EVERY PROJECT

From contemporary to old world, from clean lines to tumbled edges, TCC Materials has a product for your project. The products in this catalog provide great tools to transform any outdoor living space. While maintaining their rich color, these products are made with superior strength, providing years of aesthetic detail and durability to complement the different architectural styles.

Whether you are looking for an outdoor living space with a fireplace and dining area or a retaining wall to expand your property, this catalog is filled with great products to make your dream a reality. If your project needs a new driveway or expansive pool deck for the back yard, this catalog has a product for you. If your project requires a free-standing wall to frame in your living space or a segmental retaining wall to expand the back yard, this catalog has a product for you.

TCC Materials is a leading manufacturer of concrete, construction products, with established roots in Minnesota since 1927. TCC Materials has expanded their footprint to include plants in Wisconsin, North Dakota, South Dakota, Iowa, Nebraska, Kansas, Georgia, and Pennsylvania, they provide the United States and Canada with Hardscape, Architectural and Precast products, along with pre-mixed concrete, mortars, grouts, tile products, and concrete repair products.

WE ARE THE PRODUCER OF

THESE RESPECTED HARDSCAPE BRANDS

Slabs and pavers are the floors for your outdoor project. Borgert uses rich earth tones because the outdoor living space should blend into the surrounding environment. Colors and Styles are selected to compliment different design styles including the following:

- Traditional
- Modern
- Transitional
- Eclectic
- Country
- Coastal
- Modern Farmhouse
- Scandinavian

 **BORGERT**

Walls are a big part of every outdoor project. Whether it is a free-standing wall to frame in your outdoor living space or a segmental retaining wall to expand your backyard, we manufacture the leading brands. Many wall products have similar looks and appeals, but are different in their design and performance.

 **BORGERT**

 **AMCON**

NORTHROCK

 **VERSA-LOK**

The King of Hearths line of outdoor fireplaces and ovens are a key part of an outdoor living space. The fireplaces provide warmth and extend the time on the patio, while the ovens are a nice, functional addition to the outdoor kitchens. These units come lined with firebrick and can be built with a Borgert Strassen block or customized with natural or cultured stone.

KING OF HEARTHS
OUTDOOR FIREPLACES & OVENS

Amcon produces two types of "Big block" or Precast retaining walls. This unique style of wall allows users to build a higher wall with minimal disturbance to the area being retained. Available in multiple textures and sizes, this system offers designers and engineers a great tool to build a retaining wall that installs in a quick, efficient and economical manner.

BULOVAR® MAX GRAPHITE

Bulovar®

Bulovar linear slab was developed especially to mimic the look of a classic boardwalk. While it creates a similar look, it is enhanced by the longevity of Borgert's premium concrete slabs. Use a combination of colors or only one to create the desired look and feel of your project. Can also be used in combination with the Bulovar Max for added interest.

Bulovar® Max

When the classic linear look is desired, Bulovar Max is a wider version of the Bulovar. Use a combination of colors or only one to create the desired look and feel of your project. Can also be used in combination with the Bulovar for added interest. Bulovar Max is suitable for driveway applications.

TRADITIONAL PAVERS

Whether you're dreaming of a new patio, an outdoor living room or a simple walkway, we can help you create it with style. Borgert's pavers come in a wide range of textures, colors, shapes and styles. Imagine your outdoor kitchen defined by a timeless herringbone design or a large poolside patio made of an intricate pattern of squares and rectangles in a variety of colors. Whatever outdoor space you're creating, Borgert has the pavers you need to create a lasting impression.

BRONZE GRANITE

Calling to mind the distinctive look and feel of European cobblestones, Borgert's Cobble is a beautiful reminder of time since past. It consists of several different sizes and a variety of colors, making the number of potential pattern designs virtually unlimited. You can add interest to your Cobble project by adding circles. The packaging of the Cobble Circle makes it easy to order just what you need to create circles and without any cutting! The design possibilities are endless. It is this flexibility which has made Cobble one of the most popular paving systems.

Holland Stone is simple in design, offering a traditional classic look. Create interest in a number of fascinating patterns with the use of one stone. Bold or subtle accents can be created with the many colors to choose from.

TUMBLED PAVERS

If you're looking for a more subtle and natural feel, our tumbled pavers are your answer. These pavers have a weathered appearance that give a sense of history and elegance. Yet they perform just as well as our other products. Tumbled pavers are a tasteful option that provide a legacy of unrivaled strength and style for your walkways, patios and driveways.

MINNESOTA RIVER

MINNESOTA RIVER

Going back to the Stone Age when people's ideas of building were somewhat limited, Borgert created a simple, yet durable eye-catching system. Our tumbling process creates a sculpted appearance to each paver and our carefully formulated new colors will take you back to Medieval times. In addition, this line comes in sizes configured to create full circles, half circles or arches. A unique feature of our circle stones is that one side has a more textured edge and the other is softened, use whichever fits your taste. This system protects your investment by ensuring performance in its simplicity.

PERMEABLE PAVERS

When you're looking for a hard outdoor surface for your patio, walkway, or driveway, but have concerns about hard cover, then our permeable paver system is the right choice. This product allows water to filter through it easily, so you can be confident that you're helping conserve our ecosystem. With Borgert, you can support a clean, healthy environment and create a distinctive, beautiful outdoor space.

DRENAPAVE™

DRENAMONTAGE™

Borgert's Drena™ is a permeable paver system perfectly designed for patio, walkway or driveway applications. If you are increasing the size of your current home or wanting to build an outbuilding, Drena™ is the answer for meeting local permits where hard cover is an issue. Recharge the groundwater and keep dirty stormwater out of our lakes and streams. Borgert's Drena™ allows you to be environmentally responsible for future generations.

RETAINING WALLS

TCC Materials manufactures leading retaining wall brands offering different design and performance characteristics. Great for all aspects of your hardscape projects. Our products must pass rigid quality control standards – meeting or exceeding ASTM specifications for strength, durability and freeze/thaw cycles that the Midwest has to offer. Our strength runs deep through the company with its product offerings, business development, and industry leadership. We offer a nice balance of Earth rich colors that accommodate the ever changing style of today's Homeowners, Landscape Architects, Designers and Contractors. Together these colors bring visual interest and help customize your outdoor living space to create the right look for your project.

This unique retaining wall design that has multiple sizes and two heights is called Madera. It is hard split then antiqued to give it the natural stone effect. It can be designed for freestanding or gravity walls – two functions in one. The most unique aspect of this wall is that there are no mechanical connections such as lips or pins – meaning no extra costs or hassles. This wall will give you more choices than any other wall on the market. The units are available in two heights, 3" and 6" and range in length from 8" to 28". Because of the wall's unique configuration, it makes it easy to create a wall with multiple sizes.

OUTDOOR FEATURES

It is rigorous attention to detail that gives your outdoor living space that dramatic appeal. Sturdy, straight-lined Wall and Pillar Caps, stunning Fireplaces, Ovens and Fire Rings all become the focal point of any outdoor living space.

- 80 Fire Pits
- 82 Outdoor Fireplaces & Ovens
- 84 Pillar, Wall & Round Fire Pit Caps

Fire Pits

Like a cozy family room fireplace, Borgert offers an outdoor unit to give you the same warmth as inside your home. The fireplace unit is constructed from high-strength, lightweight concrete and fully lined with fire brick. The fireplaces are engineered for mortarless veneering with our Strassen Wall units or veneer with brick, natural stone or cultured stone. Imagine the good times with your family and friends as you enjoy the ambiance of a crackling wood fire and marshmallow roast. Prepare great meals and entertain outside using our outdoor ovens. Gather around our fire ring using wood or gas and enjoy the warmth. The quality and simplicity of installation makes this an affordable option for fireplaces and ovens.

PROTECT YOUR INVESTMENT

Pavers are a big part of your outdoor project, and you should maintain and protect them as you would the new car sitting in your garage. Here are some things to consider after you have invested in your new patio, driveway, or pool deck.

- There may be some construction residue on your paver surface from the installation of the project. A good cleaning with Tenon products will help remove the residue. Please ask your contractor about the after-install cleaning.
- Rock Salt and de-icing chemicals like Sodium Chloride (NaCl) are often used to remove ice from your pavers in the wintertime.
- These chemicals can be harmful over time and if not properly cleaned from the surface of your outdoor living space, can deteriorate the face of the pavers.

Tenon is a national brand of hardscape cleaning and sealing products offered by TCC Materials.

Paver Protection

Paver Seal Ultra Shine

Uses:

- Solvent-based coating for a high gloss “wet-look” finish
- Enhances surface appearance with a high gloss finish
- Forms a membrane to increase protection from damaging freeze-thaw cycles, deicing salts, & chemical erosion
- Minimizes spalling & aggregate pop out

Advantages:

- Easy to apply with roller or high pressure sprayer
- Non-staining, non-yellowing
- 30% solids

Finish	High Gloss
Temperature Range	Best above 40°F
VOC	< 700 g/L
Typical Drying Time @ 70F	1 hour (touch) 2 hours (traffic)
Application Rate	250-400 sq. ft./gal

Paver Wash

Uses:

- Removes efflorescence, light rust, & organic stains
- Cleans & restores paver surface & color
- Prepares pavers & stone surfaces prior to sealing
- Does not contain muriatic or hydrochloric acids

Advantages:

- Easy to apply with roller or brush
- Non-staining, non-yellowing

Finish	N/A
Temperature Range	Best between 50°F - 90°F
VOC	0 g/L
Typical Drying Time @ 70F	N/A)
Application Rate	150-250 sq. ft./gal

Paver Seal & Shine

Uses:

- Solvent-based coating for a “wet look” gloss finish
- Enhances surface appearance with a gloss finish
- Forms a membrane to increase protection from damaging freeze-thaw cycles, deicing salts, & chemical erosion
- Minimizes spalling & aggregate pop out

Advantages:

- Easy to apply with sprayer or roller
- Non-staining, non-yellowing
- 25% solids

Finish	Gloss
Temperature Range	Best above 40°F
VOC	< 700 g/L
Typical Drying Time @ 70F	1 hour (touch) 2 hours (traffic)
Application Rate	300-500 sq. ft./gal

Paver Seal & Shine Pro WB

Uses:

- Waterborne vapor permeable final sealer ideal for pavers & natural stone
- Penetrating protection against damaging freeze-thaw cycles, deicing salts, efflorescence while enhancing the surface appearance
- Penetrating formula resists wear patterns from foot & vehicular traffic

Advantages:

- Easy to apply with sprayer or roller
- Non-staining, non-yellowing
- 22% active content

Finish	Gloss
Temperature Range	Best between 40°F - 100°F
VOC	< 350 g/L
Typical Drying Time @ 70F	2 hours (touch) 24 hours (traffic)
Application Rate	200-500 sq. ft./gal

Paver Protection

Paver Seal

Uses:

- Solvent-based coating that forms a membrane to increase protection from damaging freeze-thaw cycles, deicing salts, & chemical erosion
- Enhances surface appearance with a matte finish
- Minimizes spalling & aggregate pop out

Advantages:

- Easy to apply with a sprayer or roller
- Non-staining, non-yellowing
- 25% solids

Finish	Matte
Temperature Range	Best between 50°F - 90°F
VOC	< 700 g/L
Typical Drying Time @ 70F	1 hour (touch) 2 hours (traffic)
Application Rate	200-300 sq. ft./gal

Paver Seal Pro WB

Uses:

- Waterborne vapor permeable final sealer ideal for pavers & natural stone
- Penetrating protection against damaging freeze-thaw cycles, deicing salts, efflorescence while enhancing the surface appearance
- Penetrating formula resists wear patterns from foot & vehicular traffic

Advantages:

- Hybrid waterborne technology
- Chemically reacting with surface
- 12% active content

Finish	Natural
Temperature Range	Best between 40°F - 100°F
VOC	< 350 g/L
Typical Drying Time @ 70F	2 hours (touch) 24 hours (traffic)
Application Rate	200-500 sq. ft./gal

Paver Guardian

Uses:

- Solvent-based penetrating sealer that protects the paver from the harsh effects of salts & common chlorides used to aid in snow & ice removal
- Non-gloss finish that provides natural invisible protection

Advantages:

- Easy to apply with sprayer or roller
- Chemically reacting with surface
- 10% active content

Finish	Invisible
Temperature Range	Best above 40°F
VOC	> 700 g/L
Typical Drying Time @ 70F	1-2 hours (touch) 2-4 hours (traffic)
Application Rate	40-200 sq. ft./gal

Paver Guardian WB

Uses:

- Waterborne formula provides deep penetrating protection
- Non-gloss finish that provides natural invisible protection
- Protects from effects of rain, snow, & other water penetration, deicing chemicals, salts, & freeze-thaw

Advantages:

- Easy to apply with sprayer or roller
- Non-staining, natural look
- 8% active content

Finish	Invisible
Temperature Range	Best between 50°F - 90°F
VOC	< 250 g/L
Typical Drying Time @ 70F	2-4 hours
Application Rate	40-200 sq. ft./gal

Landscape Accessories

Countertop Mix

TechMix® Premium Countertop Mix offers a high-strength solution to provide a workable surface for your indoor and outdoor project.

Landscape Loc® Mulch & Rock Bond

Keep the mulch and landscape rock in place. Landscape Loc® Mulch & Rock Bond prevents beautiful landscape beds from getting destroyed by wind, rain, wildlife, mowers and leaf blowers.
