KITCHENS

Colonial living never looked so colorful

Some design choices can be inspired by a visit to a favorite getaway destination, like this transitional kitchen. It features a bright white painted finish and marbled countertops and backsplash that provide a touch of luxury. Pared down lighting and hardware in brushed gold accentuate the clean canvas. But it's the pops of bright colors and seagrass chairs that give a nod to British Colonial living and create an easy island life feeling. The designer also recessed the cabinetry around the window to ensure there is never a lack of natural light.

Whatever your style, we bring your vision to life.

Tip: Review color and finish samples at different times of the day. Constantly adjusting sunlight can dramatically change the look of your cabinetry.

Inspiring design

Sometimes what you create inside is framed by what is just out your window. The color of the winter sky at sunset or the warm tones of autumn trees can inspire your perfect vanity and fixtures. When nature inspires your design, and the design in turn inspires you, you know you've hit the mark.

You love to entertain – from movie nights with bottomless popcorn to gatherings with an array of creative cocktails. So, your dream home has to include details that will make it extra special for guests. When an entertainment room wraps you in luxury, creates a one-of-kind experience, and allows you to serve your guests while you mingle, you know you've created an inspiring space.

Tips for hosting:

- Room darkening shades, comfy seating, and a few well-placed blankets help to create the perfect conditions for opening nights.
- Adding an integrated beverage cooler to your bar area allows you to keep guests comfortable without missing out on the conversation.
- An inviting showcase is perfect for displaying your prized collectables.
