Dear Victor,

I write to thank you and your excellent team for a terrific job on our front porch and steps, which, patched and crumbling, looked like something from a horror movie before but is now smooth, pristine, and elegant. I have long admired the Cristofaro work in neighborhoods and was glad to have the chance to contract for your services. You all exceeded my high expectations and hopes. From the beginning you and your team combined old-world values—hard work, integrity, honesty, and courtesy—with the latest techniques and technology. You also brought together engineering precision in measurements and frames with real artistry in design and execution. All of this you served up with a team of workmen who respectfully answered questions and showed real care for keeping the property and work site clean and neat.

Great communication, reasonable prices, superior workmanship, excellent results. We thank you again and again and will be very glad to provide a reference to anyone in need of your services.

Long may the Cristofaro stamp and work grace our neighborhoods!

Thanks again,

Complimenti ed Arrivederci,

Robert S. Miola
