Furnaces

The most efficient and quietest furnace you can buy*

The SLP98V has earned the ENERGY STAR[®] Most Efficient 2013 label, which means it is recognized as one of the most efficient products that qualify for ENERGY STAR.

Money-saving efficiency

Imagine paying less for a more comfortable home. Compared to older or conventional furnace models, the highly efficient SLP98V can save you up to \$800 each year on your utility bills.

efficiency rating
up to
98.2% AFUE

This chart depicts potential energy savings you can expect from the SLP98V gas furnace, versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Feel the difference

Pair the SLP98V with the icomfort Wi-Fi[®] thermostat, and you'll enjoy the benefits of Precise Comfort[™] technology, which adjusts the SLP98V's output to respond to different indoor and outdoor conditions. It can vary heat and airflow in increments as small as 1%, or larger as needed, to minimize temperature swings and provide consistent comfort. By comparison, a typical single-stage furnace operates at full heating capacity every time it cycles on.

Comfort you can feel—not hear

The SLP98V's highly efficient variable speed blower ramps up to speed quietly, so there are no loud blasts of air at start-up or any other point of operation. Exclusive SilentComfort[™] technology and special sound-absorbing materials protect your peace and quiet, too.

Up to **7 times quieter**
than competitive models*

Highlights

Perfect temperatures.

Precise Comfort[™] technology can keep your home's temperature within 0.5 degrees

Total quiet. Exclusive SilentComfort[™] technology delivers industry-leading sound reduction

Energy savings. High-efficiency system delivers significant gas and electrical savings

Easy-to-use thermostat. icomfort[™]-enabled so programming is easier than ever

Enhanced comfort and efficiency.

Variable speed motor provides increased SEER efficiency for air conditioner or heat pump

Complements your lifestyle. AirFlex[™] technology provides custom blower settings to match your home's specific design and location

Peace of mind. Limited lifetime warranty on the heat exchanger; 10-year limited warranty on all remaining covered components

Note: Warranties noted apply to residential applications only. See actual warranty certificate for details.

*Based on sound pressure levels during steady-state, high-fire and low-fire operation of Lennox SLP98UH070V36B and leading competitive units at mid-point temperature rise and minimum external static pressure when set up per Section 4.5.3 of AHRI 260-2001. Efficiency ratings established per test standard: ANSI/ASHRAE 103-2007.

The quietest furnace in its class**

Silence comes standard

What you don't hear will amaze you. Lennox' innovative SilentComfort™ technology combines advanced engineering and sound-absorbing materials with variable speed operation to make the SL280V run smoothly and quietly.

Comfort by design

The SL280V isn't just quiet—it also offers an exceptional level of comfort. Its high-efficiency variable speed motor and two stages of heat deliver a constant, gentle flow of warm air without overheating. And with an efficiency rating of 80% AFUE, you'll take comfort in lower utility bills, too.

Variable speed operation

Gradual acceleration and deceleration of the variable speed motor significantly reduce sound.

LESS SOUND. LESS HUMIDITY. MORE COMFORT.

efficiency rating
80% AFUE

This chart depicts potential energy savings you can expect from the SL280V gas furnace versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

Steady operation and even temperatures.

Variable speed blower motor provides a quiet, consistent flow of air

Smooth, quiet heating.

Exclusive SilentComfort™ technology delivers calm performance

Increased savings.

Eighty-percent efficiency rating means reduced energy consumption

Enhanced efficiency.

Increases SEER for air conditioner or heat pump

Easy-to-use thermostat.

iComfort™-enabled so programming is easier than ever

Improved comfort and indoor air quality.

Variable speed technology delivers greater humidity control

Peace of mind. 20-year limited warranty on the heat exchanger; 10-year limited warranty on all remaining covered components

Note: Warranties noted apply to residential applications only. See actual warranty certificate for details.

**Based on sound pressure levels during steady-state, high-fire operation of Lennox SL280UH070V36A and leading competitive units at mid-point temperature rise and minimum external static pressure when set up per Section 4.5.3 of AHRI 260-2001.

High-efficiency, variable speed furnace

Feel the comfort

Controlling the flow of air throughout your home is the key to ideal comfort. That's exactly what the EL296V, with its high-efficiency variable speed motor, is designed to do. It lets you experience an even higher level of comfort with two levels of heating—first-stage/low heat for mild days and second-stage/high heat for extremely cold days.

Enjoy the savings

With heating efficiencies of 96%, the EL296V can substantially reduce your annual utility bills. Among its energy-saving features is a variable speed motor that uses about two-thirds less electricity than a standard blower motor.

efficiency rating
96% AFUE

This chart depicts potential energy savings you can expect from the EL296V gas furnace, versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

Steady operation and even temperatures.

Variable speed blower and two-stage operation provide consistent comfort

Lower utility bills.

High-efficiency system keeps more money in your budget

Improves cooling performance. Increases SEER for air conditioner or heat pump

Easy-to-use thermostat.

iComfort™-enabled so programming is easier than ever

Enhanced humidity control. Pair with a Lennox® air conditioner or heat pump for optimal comfort

Peace of mind. Limited lifetime warranty on the heat exchanger; 10-year limited warranty on all remaining covered components*

iComfort Wi-Fi®-enabled

When you pair the SLP98V, SL280V or EL296V with the iComfort Wi-Fi, the most advanced and innovative Lennox® thermostat, you'll enjoy a new definition of comfort and convenience. From remote temperature adjustment to a customizable appearance to a five-day weather forecast and more, the iComfort Wi-Fi helps you get more out of your Lennox system.

Two-stage, high-efficiency furnace

Greater comfort with lower energy costs

Built for efficiency, the EL296E can save you hundreds of dollars a year on utility bills. Most of the time, it runs at a lower output to conserve energy, switching to a higher stage of operation during extreme heating demand. A Power Saver™ constant-torque motor also helps the furnace maintain comfort and efficiency.

efficiency rating up to 96% AFUE

This chart depicts potential energy savings you can expect from the EL296E furnace, versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

High efficiency. Saves money by consuming less energy

Even temperatures.

Two-stage operation provides a greater level of heating comfort

Steady flow of air. Power Saver technology adjusts to changing weather conditions to maintain comfort

Quiet operation. Low-stage operation and thick insulation keep sounds at a minimum

Peace of mind. Limited lifetime warranty on the heat exchanger; 10-year limited warranty on all remaining covered components*

High-efficiency, high-comfort heating

Designed for comfort and efficiency

Power Saver technology is a standout feature in the EL195E. It means you enjoy maximum comfort, less sound, and remarkable, money-saving efficiency.

efficiency rating 95% AFUE

This chart depicts potential energy savings you can expect from the EL195E gas furnace versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

Power Saver technology.

Delivers up to 33% greater efficiency

Quiet operation.

Resulting from a patented burner box and a fully insulated cabinet

Utility bill savings.

High-efficiency system delivers optimal performance

Peace of mind. Limited lifetime warranty on the heat exchanger; 10-year limited warranty on all remaining covered components*

*Online equipment registration at www.lennoxregistration.com is required within 60 days of installation (except in California and Quebec) or Lennox' base warranty will apply. Applies to residential applications only. See actual warranty certificate for details.

Two-stage, standard-efficiency furnace

More comfort, whatever the weather

When winter weather comes, you'll feel the difference two-stage heating provides. On extremely cold days, the EL280 delivers high heat, then switches to low heat on milder days. The result is money-saving efficiency and a more comfortable home.

efficiency rating
80% AFUE

This chart depicts potential energy savings you can expect from the EL280 gas furnace versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.368 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

Greater temperature control. Two-stage operation provides ideal comfort—even on the coldest days

Quiet operation. Resulting from a low-speed, continuous fan setting

Increased savings. Eighty-percent efficiency rating means reduced energy consumption

Peace of mind. 20-year limited warranty on the heat exchanger; 10-year limited warranty on all remaining covered components*

Elite Series EL180E Gas Furnace

Efficient furnace with Power Saver™ technology

Cozy up to energy savings

Through quiet and continual rotation, the EL180E's Power Saver motor maintains a consistent flow of air. This helps keep temperatures comfortable inside your home, even when the weather outside is changing. Power Saver technology also delivers year-round energy savings.

efficiency rating
80% AFUE

This chart depicts potential energy savings you can expect from the EL180E furnace, versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.386 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle.

Highlights

Energy savings. The Power Saver constant-torque motor operates at up to 33% greater efficiency than standard motors

Steady flow of air. Power Saver technology adjusts to changing weather conditions to maintain comfort

Quiet performance. Insulated motor compartment reduces sound levels

Peace of mind. 20-year limited warranty on the heat exchanger; 10-year limited warranty on all remaining covered components*

What is AFUE?

Furnaces are rated by the Annual Fuel Utilization Efficiency (AFUE) ratio, which is the percent of heat produced for every dollar of fuel consumed. Like the miles-per-gallon rating on your car, the higher the AFUE rating, the lower your fuel costs.

Lennox has earned the Good Housekeeping Seal on select furnaces, air conditioners and heat pumps. Ask your dealer for details.

As a four-time winner of the ENERGY STAR® Manufacturing Partner of the Year award—and the first and only winner in the heating and cooling industry—Lennox is committed to making and selling energy-efficient solutions that help protect the environment and save you money on your utility bills.

Note: Warranties noted apply to residential applications only. See actual warranty certificate for details.

*When paired with icomfort Wi-Fi.

**This product may be eligible for valuable 10-Year Extended Warranty coverage. See your Lennox Dealer for details.

A system beyond compare.

These heating systems deliver even greater efficiency and comfort when combined with other Lennox® products in one system.

XC21

The quietest and most efficient two-stage central air conditioner you can buy*

PureAir™

Air Purification System

Cleans the air inside your home better than any other single system you can buy

Healthy Climate Solutions™

Industry-leading dehumidification, plus whole-home ventilation and more

icomfort Wi-Fi® Thermostat**

Offers advanced, innovative features like remote access, emailed system alerts, a five-day weather forecast, precise temperature control and much more

Matching your system

Replacing only one part of a system may result in a mismatch that compromises energy efficiency. For best performance, it's generally a good idea to replace the entire system at once.

Optimizing your system

The furnace you select is at its innovative best when it's integrated with the following:

Dual-Fuel Heating—Gives you the option of pairing a gas furnace with an electric heat pump in one energy-saving system.

Harmony III™ Zoning System—Divides your home into up to four separate, customizable comfort zones.

*A combination of sound ratings established per AHRI's test standard: AHRI 270-2008; and efficiency ratings established per AHRI's test standard: ANSI/AHRI 210/240-2008 of two-stage central AC/HP equipment.

**Must be installed with an icomfort™-enabled indoor unit.
