Over **55 Years** of experience

Old school **craftsmanship** using modern technology

Hundreds of thousands of fences installed by **Fesco** in the Tri-State area

FESCOSHEDS AND BABY BARNs

- **FescoSheds** are made in our own shop by our own employees. This is how we have the best quality sheds anywhere.
- **FescoSheds** are made with American sourced lumber.
- Because we build them ourselves, you can customize your **FescoShed** anyway you want. Extra windows, doors, bar windows, lofts, dormers, hip roofs, front porches, and anything else you can think of.
- **FescoShed** floors are made with $\frac{3}{4}$ " pressure treated plywood over pressure treated 2x4 joists. These are spaced 12" on center (versus non pressure treated $\frac{1}{2}$ " plywood on non pt 2x4 joists spaced 16" on center like prefab sheds). This enables you to load more weight into your **FescoShed** as well as increasing the longevity of your **FescoShed**.
- We build the walls out of LP Smartside siding, which has a pre primed exterior and an MDO interior. We don't use any T-111 or particle board that can delaminate in the elements.
- **FescoSheds** have a 7" roof overhang versus 1-3" on prefab sheds. This gives our sheds a more attractive and proportionate roof line similar to a house instead of a kids playhouse.
- **FescoSheds** can also be installed with vinyl siding over plywood sheathing.
- Our roofs are 25 year architectural shingles or metal roofing.
- Your choice of colors is unlimited since we paint them all ourselves.
- **Baby Barns** are made from locally sourced Catskill mountain white pine lumber. It's all 1" thick solid wood, no plywood, particle board or engineered woods.
- **Baby Barns** are authentic unfinished board and batten siding which can be left to weather to a silver gray or stained or painted.
- Our roofs are 25 year architectural shingles or metal roofing.
- **FescoSheds** and **Baby Barns** are assembled on your site. We make the floor and walls in our shop and assemble them on your site. No need to transport them as one prefab unit, loosening the nails and screws with every bump in the road. And we're not limited to installing them only where there is easy access for a prefab shed. We can install them anywhere without damaging your fine lawn and landscaping.
- All of these reasons are why we can guarantee our **FescoSheds** and **Baby Barns** for 5 years. Try finding that anywhere else. See our website for full details on the warranty.
- We're also able to build a **FescoShed** and **Baby Barn** in kit form so you can even tackle the installation yourself.
