Practice management, accelerated

New features in CGM MEDISOFT v31 include:

- **Catch every charge, all at once**
  Run the new Create Unprocessed Charges. Checked-out appointments turn into ready-to-post charges
- **Fewer rejected claims**
  Attachment info moves to the claim, and multi-case patients get flagged before you post
- **Faster AR, from remit to resolution**
  Secondary PR lines post automatically, and status travels with every claim into the AR Tracker
