

## 7" Backup Camera Kit

### Features

- Weatherproof High-resolution 7" TFT LCD monitor
- Distance grid for rear camera automatically displays when vehicle is in Reverse
- Integrated audio speaker
- Selectable Mirror/Normal image modes
- Auto-Power On

### Screen Specifications

|                       |                             |
|-----------------------|-----------------------------|
| Screen Size           | 7" (Diagonal)               |
| Resolution            | 1440(W) x 234(H)            |
| Dimensions            | 7.7"(W) x 5.7"(H) x 1.3"(D) |
| Power Requirements    | DC 12-32 Volts              |
| Power Consumption     | 9.6 Watts                   |
| Connectors            | Locking Cable & Lead Wires  |
| Operating Temperature | -22Deg F ~ 176 Deg F        |

### Camera Specifications

|                       |                                        |
|-----------------------|----------------------------------------|
| Image Sensor          | 1/3" Color Sony Super HAD              |
| High Resolution       | NTSC(525TVL) 512 x 492                 |
| Min. Illumination     | 1.0 LUX (IR LED Off)/0 LUX (IR LED On) |
| Operating Temperature | -22 Deg F ~ 176 Deg F                  |
| Power Source          | DC 12V 120mA (Max 300mA)               |
| Dimensions            | 3.7"(W) x 2.1"(H) x 2.6"(D)            |
| Weight                | 0.85 lbs                               |
