These two buttons are used to:

"Manually" refresh the screen (button on Left).

"Pause" the screen from refreshing itself. (button on right).

This dropdown contains GIS Mapping Overlays.
The chosen overlay puts the Towns Area Maps in place with the "Priority Roadways" within each area map. Notice the darkened untraveled priority roads in a transparent black shading - confirming it has not been traveled on recently.

There is the option to switch to Google Earth images while in the PathView Mapping Program. It is located in the lower left hand corner of the map screen.

With the "Path View" Mapping you can clearly see how well the streets have been traveled for plowing, sweeping or sanitation trucks.
