EXAMINATION - RECOVERY TRANSPORT & EMERGENCY

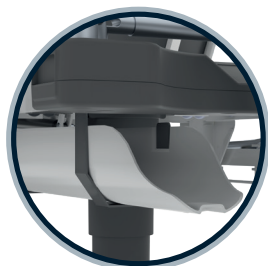

mubi
MEDICAL

Designed to Offer Unmatched Mobility & Safety

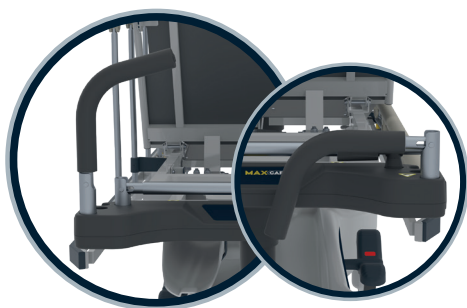

A standard configuration with all the features you need, tailored to your needs and budget.

Adjustable backrest
reduces patient migration by eliminating the amount of force required to position the patient.

Oxygen tank holder

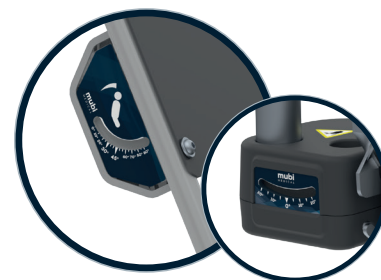

Foldable push handles
improve maneuverability.

Retractable fifth wheel
allows manipulation and control during transfers.

Centralized brake
prevents wheels from turning, ensuring safe patient exit.

Degree indicator
allows knowing the angle of inclination of the backrest, Trendelenburg and reverse.

700 lbs
Safe Working Load

- Minimum height position, facilitates safer entry and exit of the patient, reducing the risk of injuries due to falls.
