**SUMMER 2026
HORSE
Day Camp!**

Celebrating 34 summers of horse filled fun!
 Create lasting memories and
 form priceless friendships.

Can't wait to come back!

Meet the Camp Instructors

Nancy Anheuser

Nancy brings with her many years of experience instructing young riders in private lessons and in running equestrian camp programs. Both are her specialty. She loves to work with beginning horse lovers, teaching them the foundations of riding correctly and safely, and most of all to respect and care for the horses, who are their best teachers. Nancy is currently retired from nursing and has been interested in horses since she was a child. She started lessons at age 10, earning a Horsemanship badge through Girl Scouts. She has learned a lot from the many horses she has owned since then. Her current horse, named Snickers is her great love.

Jodie Edwards

Jodie has been a riding instructor at Pine Ridge for the past four years. Her love for horses started at a very young age when she baby sat horses for a family friend. When she was 10, she began taking riding lessons here and her love for horses has never stopped. At 15 she was given the opportunity to teach riding lessons to beginners which has become a strong passion. Her goal is to be a professional riding instructor and horse trainer. Outside of teaching she also shows in 4H and at local hunter shows. She's so grateful for the opportunities here at Pine Ridge and is excited to be a part of this years' horse camps again.

Jubilee, our branded Mustang.

*A Summer
You'll Never
Forget!*

Freckles is a fun ride.

Join us for an exciting and action-packed day camp where we take learning about horses to the next level! Our fun-filled and educational week-long camps are perfect for learning the basics of horseback riding, knowledge and horse care. We will explore how horses think, feel and perceive the world in fun, hands on activities. Campers will master the basics of grooming and saddling their horse under the guidance of our experienced and encouraging staff. Our air-conditioned classroom provides a comfortable learning environment as we cover topics like horse body language and behavior, safety around horses, parts of the horse, breeds, colors, horse tack, and more! Most importantly, we have safe and seasoned lesson horses who are well-cared for and love their jobs!

Meeting new friends.

All campers are required to wear a helmet when in the barn and around the horses. We can provide them or you may bring your own. We highly recommend wearing long pants and closed toed shoes with a small heel and smooth sole. Whether it's your first time attending or you're a returning camper, each year brings new activities and adventures!

The first day of camp will be spent learning how to be safe and have fun around horses. When not on horseback, campers are taught barn safety and horse handling. In both the saddle and our air conditioned classroom, campers will be exposed to many facets of the horse world through hands-on activities as well as games. Daily topics may focus on anatomy, behavior, breeds, colors and gaits. Other topics will include horse equipment and English riding discipline.

On Fridays at 11am, we host a horse show for families and friends where campers proudly demonstrate the skills they've learned!

Peeps is so much fun!
