b

The Stall Barn is an enclosed shelter for animals, to protect them from the weather. If you are limited in stall space in your barn or need a place to keep an animal, this is an economical option for you. Constructed of the finest materials; this structure should last a lifetime. Interior window grills prevent your animals breaking them. The Stall Barn is available in many sizes.

Horse Barns w/ Run In

The Run-In Stall Combo is a great option for the hobby farmer, or additional space for any livestock. With the option of allowing your animal free pasture access with shelter or keeping it enclosed, this is the best of economical solutions. A storage/feed room is conveniently attached, making care of your livestock so much easier.

a 10' x 28' Run-In Stall Combo

Black Shingles

Options shown: red paint, black trim

b 10' x 30' Run-In Stall Combo

Run-In Sheds

a

10' x 20' Run-In Shed

Options Shown: Red & White Metal

b

10' x 20' Run-In Shed

Options Shown: Blue & White Metal

Our Run-In sheds are constructed of top quality oak post and beam style frame. A 6" x 6" pressure treated base provides the structure foundation. We install a solid oak kick-board inside to protect from wear and tear of horses or other animals. A center partition wall can be installed for double wide run-in sheds.
