Work Setting

In-Person

Outdoor Work – Year Round

Construction Site – Roof level

Job Description

We are looking for a highly motivated individual to join our team. The Service Technician Lead will be responsible for service repair for predominately commercial roof repair and reroofing.

Requires a valid driver's license to drive company trucks to and from customer locations.

Must be highly self-directed and self-motivated.

Required Skills:

- Being able to demonstrate a wide knowledge and skill with a range of roofing applications.
- Requires a problem-solving attitude.
- Must be comfortable using ladders repetitively multiple times per day and working safely from heights.
- Need to be able to lift up to 80lbs multiple times per day.

- Be able to work in all types of weather conditions and temperatures. This is an outdoor position.
- Good organizational skills and ability to multitask simultaneously.
- Ability to prioritize.
- Self Directed on following up on issues and initiatives.
- Exceptional customer service and communication skills.
- Ability to achieve goals.
