

Welcome

The garage is one of your home's most underutilized spaces. Having a well-designed storage system can significantly enhance the quality of your life and that's why we are here, to help you realize your garage storage potential. After all, it's more than just garage storage. It's your life organized.

Floor Coatings

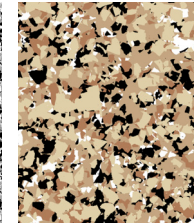

Our garage floor coatings are a long-lasting, stunning addition to any garage. The flooring's chemical and scratch resistant properties make cleaning and maintaining your garage floor easier than ever. Combine flooring with wall storage, shelving and cabinets to keep tools, gear, seasonal storage, and more off the ground, making your garage truly a space to admire.

Floor Tiles

Instantly transform any ordinary garage from a concrete storage room to a striking living space. From classic to bold, our interlocking garage floor tiles are available in a wide range of colors and styles. They're manufactured with UV stabilizers that stand up against years of sunlight exposure, keeping the floor strong and colors bright. Best of all, it only takes our trained flooring professionals a few hours to install this space-altering addition.

Quality & Durability

Our panels and shelves are made from furniture grade composite board that gives our product the necessary strength for long-lasting, quality construction.

1

This decorative laminate layer is available in a variety of colors.

2

High density composite panels are CARB 2 compliant and meet LEED green building standards. Our substrates are made from wood sourced from certified, recycled, recovered and/or controlled sources.

3

Our panels are custom-cut using 3/4" and 1" thick TFL, which consists of laminate, fused to a high-density composite panel (heat and pressure fuses the decorative layers to the core, actually becoming part of the panel itself).
