Laser Treatments

Morpheus8 Body & Face Tightening

Morpheus8 has the ability to treat wrinkles, sagging skin, acne scars, stretch marks, and surgical scars, and produces skin tightening by stimulating collagen. It can be used on many areas of the body including the face, neck, abdomen, buttocks, thighs, and knees.

DiolazeXL Laser Hair Removal

DiolazeXL combines safety, patient comfort, speed, and efficacy. Patients can achieve permanent hair reduction while sitting through shorter treatments. Diolaze can target large areas and treat even the most stubborn hair. It is fast and causes minimal pain due to the built-in cooling surface.

Lumecca IPL Treatment

Lumecca is the most powerful intense pulsed light (IPL) used to target pigmented brown and red spots and treat vascular skin lesions. Lumecca improves the appearance of age spots, sun damage, vascular lesions, rosacea, and freckles.

Injectables

The RHA® Collection

The RHA® Collection preserves the natural structure of hyaluronic acid (HA), providing long-lasting fillers for wrinkles and folds. Results can last up to 15 months in dynamic wrinkles and up to 1 year in lipstick lines, with a customized treatment plan based on individual goals.

Botox®

Clostridium botulinum (Botox®) - the toxin botulism - is proven to be a safe yet powerful neurotoxin effective in treating wrinkles. Botox® blocks nerve signals sent from the brain to muscles in your face, preventing them from moving. Over time, the skin's memory fades as the muscle goes unused, thereby reducing wrinkles.

DAXXIFY®

DAXXIFY® (DaxibotulinumtoxinA-lanm) - the first and only peptide formulated neuromodulator with long-lasting results, is FDA approved for the temporary improvement of moderate to severe frown lines (glabellar lines) in adults.

Facials

HydraFacial

HydraFacial is a medical-grade resurfacing treatment that clears out your pores, plus it hydrates your skin. The four-step treatment includes cleansing, exfoliating, extracting, and hydrating the skin with serums that are infused into pores with the HydraPeel Tip.

Diamond Glow

The transformative power of DiamondGlow® starts in our signature wand. Built with our innovative 3XI™ technology, the wand simultaneously exfoliates, extracts debris, and infuses the skin with professional-grade SkinMedica® Pro-Infusion Serums, when pores are open and most receptive.

Chemical Peels

SkinMedica and ZO Professional Peels
